Mr. Setna is a special permanent invitee to the Executive Council of Indo-American Chamber of Commerce. Appointed Director to the CPIL Board in 1978.

MESSAGE TO SHAREHOLDERS

Dear Colgate Shareholders

This year, Colgate is celebrating its 80th year in India, a testimony to the brand's commitment to the country where Colgate is an intrinsic part of most households.

In 2016, for the sixth consecutive year, Colgate was ranked as India's #1 Most Trusted Brand in the Economic Times Brand Equity Most Trusted Brand Survey, a consumer survey conducted by Nielsen. Colgate's '**trust**' has been nurtured through the years with our expertise in Oral Care and with our core value of '**Caring**' as its bedrock. Colgate's trust is reflected in the quality of our products and also in our dedication to serving the communities in which we do business. We have built our brand in India with consistency, while keeping the **Consumer at the heart of everything we do.**

In FY 2016-17, Colgate continued to focus on its strategic pillars of **Engaging to Build our Brands, Innovation for Growth, Effectiveness and Efficiency, and Leading to Win**, in order to achieve our goals and sustain our momentum in the market. At Colgate, it is not only delivering the numbers that matters, but also conducting business with integrity and respect.

"At Colgate, it is not only delivering the numbers that matters, but also conducting business with integrity and respect."

In FY 2016-17, sales growth moved positively with net sales increasing 4.0% over the previous year. While volume was under pressure largely due to softness in the wholesale channel, gross margin expanded 40 bps due to selling price increase and focussed cost-efficiency programs within the Company. We increased our advertising spends by 14% in FY 2016-17 as we continued to invest behind innovation and building our brands in a heightened competitive environment. We maintained our strong balance sheet and cash flow, and our leadership in both, toothpaste and toothbrush categories in FY 2016-17, with volume market shares for the year at 55.1% and 47.4% respectively.

FY 2016-17 was a year of unprecedented challenges with liquidity crunch and the changing macroeconomic conditions. Despite these challenges, Colgate proactively took positive measures to ensure ease of business for our business partners by extending credit to our distributors, providing additional incentives, accelerating the processing of trade claims and advancing payments to our supply chain partners. Such proactive support reinforces the trust our partners have, on Colgate.

Colgate is a frontrunner in using technology as an enabler in order to build a stronger engagement with urban and rural constituents. In 2016, we launched a one-of-a kind service '**Pocket Dentist**', in partnership with Indian Dental Association, which provides individualized professional dental advice. Currently launched in two districts of Uttar Pradesh, 'Pocket Dentist' detects multiple dialects and responds to the 30 most common oral health questions, thereby addressing 91% of the total oral health queries.

Innovation is essential for driving growth and we believe in tapping into local insights and leveraging trends basis consumer needs. In 2016 we launched

Colgate Cibaca Vedshakti toothpaste based on the insight that consumers value the use of natural ingredients to help prevent dental problems. This new addition further enhances our existing Naturals portfolio. In 2016, we also launched **Colgate Sensitive Clove**, our first toothpaste using the natural ingredient-clove, for protection against sensitivity.

At Colgate, we have a deep understanding of our responsibility and are dedicated to contributing to the communities where we live and work. In India, we are committed towards promoting preventive health care with a special focus on oral health, promoting education, addressing inequalities and conserving our natural resources.

"In India, we are committed towards promoting preventive health care with a special focus on oral health, promoting education, addressing inequalities and conserving our natural resources."

We believe oral health care is an area that needs attention and as a leader in Oral Care in the country, we continue to '**Keep India Smiling**' through our **Oral Health Month (OHM)** program. OHM is our annual dental health awareness program, run in partnership with the Indian Dental Association (IDA) now, for over 13 years. In 2016 the OHM program enabled a total of 6 million free dental check-ups across India.

One of our most engaging programs, **Bright Smiles Bright Futures™** (BSBF), which started in 1976 in association with the Indian Dental Association (IDA), has reached 142 million school children till date. BSBF spreads oral hygiene education and awareness among children between the ages of 6 and 14 years. This program reached a total of 8.2 million school children in the year 2016.

Skill building is the need of the hour and we believe that every small step in this direction counts. In 2016, Colgate started the **Saksham program in association with SEEDS and Implementation Partner-IL&FS Skills**, in Lucknow, with 55 students. This is a pragmatic initiative for Social and Economic Empowerment of the underprivileged youth through an Employability Linked Skill Development program. A total of 202 youth have been trained and certified through Saksham during FY 2016-17, and the program has now expanded to Muzaffarpur in Bihar and Moradabad in Uttar Pradesh.

Water is a key pillar of Colgate's Sustainability Initiatives. Colgate's priority focus areas include promoting water conservation awareness among all consumers, partnering with local and global organisations to bring water to under-served areas, reducing our manufacturing water intensity as well as engaging vendors and suppliers towards water sensitisation.

In 2016, Colgate launched the **Water program** in association with 'Water for People', focusing on the quality and accessibility of drinking water, hygiene education, water conservation, and supporting sanitation in schools with harvested water.

Also, as part of our **Making Every Drop of Water Count** commitment, Colgate implemented a campaign in India featuring Indian Water Heroes and their success stories to sensitise and inspire people towards the cause of water conservation.

Looking Forward

For FY 2017-18, our overarching priority and objective is to continue to remain focused on innovations, increasing effectiveness and efficiency and giving back to the communities where we live and work, in line with our core values of **Caring, Global Teamwork and Continuous Improvement**. Our product pipeline will continue to be supported with engaging marketing programs and strong advertising investment.

As we move ahead together, I would like to thank all Colgate stakeholders for their commitment towards achieving our goals with the highest ethical standards, and I would also like to express my appreciation for the support we receive from our consumers, customers, suppliers, shareholders and directors.
