Company's Performance Overview

The construction industry is the second largest industry of the country after agriculture. Government support is exemplified in expansionary budgetary allocations for infrastructure projects and in regulatory reforms that are opening new sectors to private involvement and investment. The Government has a positive outlook for India's construction industry and expects that growth over the next decade will draw upon increasing government and private-sector investments in infrastructure development, and resident and non-residential building and expects a growth rate of 7-8% per annum over the next 10 years. Your directors are pursuing various strategies to cope with to ensure a promising future in time to come.

The skilled labor shortage is a major concern for firms across India as employers struggle to staff their job sites. A lack of technical training in schools and less emphasis on the trades are also contributing to a smaller pool of workers entering the industry. Combined with an aging workforce, those factors are creating a struggle for construction firms seeking employees for positions ranging from skilled trades to managerial roles.

Despite adversities in Engineering and Construction (E&C) industry prevailing, your Company has been able to maintain its profitability in the year under review as well.
