4. OPERATIONS

The Construction industry has been facing many constraints in recent times due to lack of efficient and stable regime and policy, which has led to project delays and less off take leading to costly and time consuming disputes between the project-promoters and contractors.

The construction industry in general and the company in specific have been affected by the macro and micro economic scenario. The macro reasons such as the drag in credit off take have resulted in the deferment of capital expenditure in the economy, affecting the project completion thus leading to locking up of funds. Delay in project completion and project stage certification affects the payment release- the commonly used deferment strategy by the clients. This delay in payment by clients results in liquidity crisis for the industry / company which has percolated into delayed payments or defaults with suppliers / subcontractors/ banks /statutory authorities / employees.

Further persistent delays and variations in public sector projects, have come on hand for them as an excuse for delaying or reducing the payments and claims and thus crippling the working capital cycle.

With respect to micro factors, the dip in sales was mainly due to delay in project schedule, cancellation of projects and drop in certification and claims. The material cost and sub-contractor cost have increased, on account of lower sales and delayed payments to vendors resulting in higher cost of inputs. The under recovery of fixed overheads due to idle resources and lower turnover further bloated the cost and affected the margins drastically. The delayed certification and release of payments had led to delay in execution, /unabsorbed

overheads /cash crunch situation due to lower volumes and higher costs including finance costs.

There has been a constant stress in EBITDA margin from FY2011 onwards and this has taken a steeper dip in the current year due to project delays and incurrence of higher expenditure on account of project / payment rescheduling which unfortunately had not been honoured by the clients on account of liquidity issues ultimately affecting the project itself. These factors have also led to invocation of Bank Guarantees thus adversely affecting the credit standing and regular working of the company. This further resulted in augmentation of creditor / statutory / secured liabilities and added to these, delayed realization from sundry debtors led to complete exhaustion of working capital.

Under these conditions your company planned to get its debts restructured to avail appropriate concessions, breather and additional funding to tide over this cash strained scenario. During the year the debt restructuring proposal of the Company was referred to the Corporate Debt Restructuring (CDR) Cell by State Bank of India. The restructuring under CDR inter-alia provides for business restructuring envisaging sale of certain assets and investments and financial restructuring through reduction in interest rates and appropriately designed repayments.

The CDR cell approved the package vide its letters dated 28 March 2014 and 28 April 2014, giving certain terms and conditions for the business and financial restructuring including sharing of security among lenders.

Pending execution of necessary documents and compliance with certain conditions of the CDR which have been agreed to by the Company and the Promoters, the interest relief of Rs.1788.79 for the year ending 31 March 2014 has been considered in these accounts. The total new orders awarded to the company during the year is Rs.8,836.86 Million.

The total order backlog as on March 31, 2014 is Rs.180,677 Lacs.

4. OPERATIONS OF SUBSIDIARIES

Consolidated Interiors Ltd.

The focus has been to complete the jobs on hand and wait for the right opportunities till the market stabilizes, which is round the corner. Noble Consolidated Glazings Ltd. (NCGL)

The glazing market being a sub set of the construction industry, the various factors discussed above drastically affected the operations of NCGL. Completion of projects on hand and collection of receivables and optimization of costs had been the priority in 2013-14. Till such time to ease the liquidity the company has initiated restructure of its working capital exposure with the banks, which is under their active consideration.
