1 1 TH ANNUAL REPORT 2001-2002

ABOUT US

INTERNATIONAL INITIALS

Started in 1991, Control Print (India) Limited began with a dream of bringing the Indian packaging at par with the international benchmark in terms of Coding & Marking. In last 12 years, we have grown steadily to become the market leader with a large installed base and comprehensive range of Coding & Marking solutions.

In the current context of globalisation and opening of economy in India, packaging is one sector which is developing at the never before pace and so is the demand for latest Coding & Marking technologies. Control Print is today fully prepared to capitalise on this huge potential ahead and grow at the rate faster than the market.

WHY CODING & MARKING IS REQUIRED?

Today every packaged product needs to be coded with variable data such as Batch No., Mfg. Date, Best Before Date, M.R.P., Serial No., etc. Traditionally this was done with older 'off-line' techniques that are slower, inaccurate, inefficient and expensive. However, with growing production volumes, greater quality awareness and global competition, more and more manufacturers are adopting the 'on-line' Coding & Marking solutions which Control Print specialises in. The obvious advantages are faster operations, superior prints and economical running cost. Coding & Marking is essential and beneficial in many ways. Some of the key benefits are:

REGULATORY COMPLIANCE :

Various laws related to packaging make it mandatory to do Coding & Marking on different products. Prominent amongst them are, the Rule 6(1)(c) of the Standards of Weight & Measures (Packaged Commodities) Rules - 1977 and 1998 Packaging Regulation for Edible Oils. Moreover the recent Government Notification which makes it mandatory for all perishable packaged food items to be printed with 'Best Before Date', is likely to substantially expand the need for Coding & Marking solutions.

• PRODUCT FRESHNESS :

Consumers today insist on information about the freshness of a product that they are buying. Easy to read coding of data like Mfg. Date, Best Before Date, etc. can help win consumers confidence and post a quality conscious brand image.

• PRODUCT IDENTIFICATION :

Data like Batch No., Serial No., Mfg. Date, etc. is essential

for tracking the products in the event of tampering or recall. Besides, such identification measures are also essential while implementing various quality standards such as ISO, UL, etc. for any manufacturer.

INVENTORY CONTROL:

As manufacturing becomes increasingly automated, coded information can guide products through different production processes as well as distribution channels thereby reducing the overall cost of logistics with accurate inventory control.

AESTHETICS & PROMOTION :

As the awareness about the aesthetics of packaging has been growing, the clean, clear and consistent coding & marking have become the integral part of modern package design. These on-line coding machines also allow for printing of seasonal promotional messages directly on to the individual packages thus adding to the marketing value.

PRODUCT SECURITY:

The alphanumeric codes or logos printed using modern lnk Jet Printers at specific location on the product surface are virtually impossible to duplicate, and thus serve as an effective measure against the threats of tampering, duplication, etc.

Control Print (India) Limited offers an array of technologies in Coding & Marking in association with the global leaders.
