ANNEXURE A

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development:

Your Company is engaged in the field of Processing / Job working / Manufacturing, of specialty chemical ingredients, in dry powder forms, finding applications as a nutritious (or as a edible additive) raw material, in dry re-constitutable food and pharmaceutical recipes. Commercially, at times known as the nutraceutical Industry products or as Enteral Nutritional Industry raw materials, Health Food Industry raw material etc.

Opportunities, Threats, Risk and Concerns:

This is a developing field, emerging out of the fusion of certain aspects of three industries, namely The Chemical – The Food – The Pharmaceutical Industry, with an opportunity of growth. But currently the cost of manufacturing and marketing is high, as volume of business is low, since the concept has yet to catch-up In India, as compared to certain countries abroad, which is a kind of threat to the viability, at least for the time being. The risk is that the “off-the shelf ready to use packaged products” which are costly and targeted to the modern life, depends on how fast the purchasing power of Indian Mass Public improves. However, considering all factors the Company has indentified two new products, namely Capric / Caprylic Triglycerides and Lactose Free products by indigenous technology efforts which seem promising in generating revenues and profits growth.

Financial Performance With Respect To Operational Performance:

The Operations remained sub-optimal due to financial constraints and the time which was required to be devoted in technically perfecting the products / formulations, in the potential nutraceutical – Enteral and Pediatric nutrition field. New products which will be introduce in the subsequent years in branded retail packages have been technically perfected and will add to our product lines, whereby there will be better profitability in subsequent years.

Internal Control Systems and their adequacy:

Your Company has adequate internal controls for its business across departments to ensure efficiency of operations, compliances with internal policies and applicable laws and regulations, protection of resources and assets and accurate reporting of financial transactions.

The internal control system is supplemented by extensive internal checking system, regular reviews by management and standard policies and guidelines to ensure the reliability of financial and all other records.

Human Resource / Industrial Relations:
