CHAIRMAN'S AND MANAGING DIRECTOR'S LETTER

Dear Shareholders

Ladies & Gentleman. A very Good Morning to you all.

I welcome you all to the 24th Annual Meeting of the Shareholders of Crew B.O.S. Products Limited.

I will now proceed to share my thoughts on the Company and the macro environment.

Since the onset of the global meltdown, we have all been expecting a turnaround in the global economy & negative economic sentiment. It has become a continual wait. There are definitely some signs of the global economic recovery in certain quarters with the US economy showing signs of growth; as against that, the EU is yet to come back on track with the GDP still in the negative zone. The Indian Economy continues to oscillate over policy issues. The investment climate is still a challenge with credit availability and cost of capital adversely impacting business.

It is time to also recognize the fact that the external climate will continue to be uncertain. So, it will be left to each organization to respond to these drifts and work out a business model that will help them to be agile and responsive to changes. I am aware that the road we have travelled has been arduous & it has been tough for a couple of years. Having said that the decisions that we have made to wipe the slate clean with respect to rectifying the issue that will allow all of us to freely comprehend the position the company finds itself in as of now. This will also allow us to set on a path of recovery and launch a transformation process where innovation and our ability to integrate various disciplines will help us deliver results in the coming years.

Financial & Business review

Your Company's gross income for the year ended 31st March, 2013 stood at Rs. 28819.14 Lakhs, as against Rs. 43903.56 lakhs for the previous year. The net income from operations was Rs. 26794.99 lakhs during FY13, as against Rs. 43204.05 lakhs for the previous year.

However, an increase in the total expenditure (with increased interest costs, finance charges, higher depreciation and staff and other costs going up) affected net profits during the year under review. Your company is confident of increasing its business during the current fiscal and steps taken in the form of consolidations plans encompassing the high adherence to world class quality standards shall contribute in realizing its aspirations. The present year has had its share of misfortune in the international trade and your company suffered heavily due to non realization of debts from exports /domestic trades due to the economic downturn in the Global economy.

It was also unfortunate that the company got caught unawares with a situation relating to our Chief Financial Officer. He had the organization wrongly believing into entering into certain trading activities that were seemingly lucrative. These turned out to be schemes that would benefit him personally and his associate companies and as result he has fraudulently siphoned off scarce resource of the company. It was later found out on investigation that all his credentials as per his CV were wrongly declared. It was found that his CA certificate was forged as well as his work experiences and remunerations were wrongly stated. We have launched an investigation as well as reported him to the competent law enforcement authorities. At the same time we have immediately suspended and de alienated him from any affairs of the company or its subsidiaries. In spite of these drastic setbacks we are confident that the company will be able to recover and realize its true potential and corrective actions will pave the path to its recovery

The fact that a number of our businesses were not doing well due to the current economic scenario internationally, it was time to take stock of the situation and focus on reducing expenses that were being carried to support these non profitable businesses. Closure of these businesses will allow us to be able to consolidate our balance business activities over a narrower geographical area ensuring better control over the efficiencies and therefore reduction of costs. It is clear that the increase of expenditure to support "optimistically" our various expansions have hurt the organization in a huge way. It was important to stop this slide and focus on our core areas of manufacturing – therefore enabling us to get on the path of recovery, albeit slowly. I am confident that these decisions will enable us to move forward – by first taking a few steps backward. The future of the leather business looks very good and once we have re organized our operations to be leaner and efficient, we can only then capitalize on the opportunity India as a country and Crew BOS as a company has in the near future.

I would like to point out that in a few short years Crew BOS became the number one leather goods exporter in India. I am confident that this process of consolidating and then growing in a controlled manner will put us back on the road to success.

A WAY FORWARD

Our valued customers who are great brands in the US and Europe continue to support us and our long standing relationships will endure and allow us to ride this difficult period. Our engagement with our customers has always been exemplary and these relationships are what will see us through these setbacks and put us back on a path of excellence that have allowed us to serve our customers to our best abilities. Crew BOS design room still continues to be the foremost design room in India and Asia for leather goods. This excellence is now allowing us to go to better customer and improve our margins in the future. Additionally the Govt. of India along with the leather Council is taking several steps to promote the industry. The problems of high prices of labour and raw material in China are putting new opportunities in front us. A combination of the above, I am sure, will allow us to perform well in the future and restore the confidence that all of you have always had in us.

A word of thanks

I also take this opportunity to thanks all the team members as well as our valued clients who have supported us during this difficult phase. We have done very well as a company since our inception. There is no reason why we will not be able to achieve the same heights and more in the near future. I thank all of you valued shareholders, bankers for your support. We will continue to work hard to bring the company back to excellence and take it to its true destiny.

Last but not the least I would like to apologies - very sincerely - for the way the company has performed in the current year. It has been tough and all of you have endured the pain along with us. Some, more than others. The only assurance I can give you is that my team members, co directors and I have tried our best to ride this storm with a huge commitment every day. We will continue to do the same in the future and I am sure we will have enough reason to cheer. Many many thanks for your support.

Yours truly,
TARUN OBEROI
Chairman
