EXPLANATORY STATEMENT PURSUANT TO PROVISIONS OF SECTION 173(2) OF THE COMPANIES ACT, 1956 ITEM NO. 4

The Textile Industry occupies a unique place in our country. One of the earliest to come into existence in India, it accounts for 14% of the total Industrial Production and contributes to nearly 20% of the total exports & is the second largest employment generator after agriculture.

India at this juncture, with large cotton availability and a good scope to increase the yield of cotton per hectare, has the additional advantage of skilled labour and management. In this scenario, one can safely conclude that the growth of cotton yarn production in India will only intensify in the coming years.

A vision 2010 for textiles formulated by the government after intensive interaction with the industry and Export Promotion Councils to capitalise on the upbeat mood aims to increase India's share in world's textile trade from the current 4% to 8% by 2010 and to achieve export value of US \$ 50 billion by 2010.

With this view the expansion plan for adding the capacity of 26,400 spindles has been taken up. As per the current plan the production capacity is to be further expanded to 1,03,236 spindles by 2008-09.

In order to part finance the said expansion plan the term loan and working capital facilities have already been sanctioned by Punjab National Bank, Hissar as per details mentioned in resolution.

Mr. T.R. Ramamurthy of Ramamurthy Associates, Practicing Company Secretary, 9th, Rukhmini Building, A-6, Dilshan Colony, Delhi - 95 has been appointed as Scrutinizer for conducting postal ballot exercise in fair and transparent manner. The Scrutinizer will submit its report to the Chairman on or before August 25, 2007 and the Chairman shall declare the result at the 117th Annual General Meeting scheduled to be held on August 27, 2007.

The Board commends the resolution for your approval. None of the Directors of the Company is interested in any way in the above resolution.

DIRECTORS' REPORT

Your Directors have pleasure in presenting their 117th Annual Report alongwith audited accounts of the Company for the period ended March 31, 2007.

OPERATIONS OVERVIEW**Textile Division**

The Textile Division of the company is located at Hissar in Haryana with a capacity of 56,628 spindles and has Branch Office at Delhi with manpower of 1162. The division is engaged in the production of cotton carded and combed yarns, being sold far East Countries, Middle East Countries, Europe, the USA & Bangladesh. The said capacity of Division of 56,628 spindles would increase to 72,036 by the end of year 2007.

The Textile Industry occupies a unique place in our country. One of the earliest to come into existence in India, it accounts for 14% of the total Industrial Production and contributes to nearly 20% of the total exports & is the second largest employment generator after agriculture.

India at this juncture, with large cotton availability and a good scope to increase the yield of cotton per hectare, has the additional advantage of skilled labour and management. In this scenario, one can safely conclude that the growth of cotton yarn production in India will only intensify in the coming years.

A vision 2010 for textiles formulated by the government after intensive interaction with the industry and Export Promotion Councils to capitalise on the upbeat mood aims to increase India's share in world's textile trade from the current 4% to 8% by 2010 and to achieve export value of US \$ 50 billion by 2010.

Under the WTO agreement, the USA, Canada & European countries have removed quotas on textile exports. With this, a huge demand of textile goods is emerging world wide. The demand is also buoyed up because of the Indian economy growing fast. With this view, the Division has planned to further expand its capacity 1,03,236 by 2009-2010.

IT Division

The IT Infrastructure is an all-pervading component of global economy. It however, does not form the core competence of businesses where it is deployed. Consequently the IT budget escalations are happening slowly whereas the expectations, because of business alignment with global economy, are rising. The natural outcome of this is outsourcing, preferably to a low cost destination. Nearly 80- 85% of Infrastructure operation can be outsourced to an offsite or offshore location. The Infrastructure Market projections by 2010: Gartner : US\$ 150 Billion, Nasscom: US\$ 80 – 150 Billion.

Over the last 4 years there has been a realisation that about 40-60% of what can be outsourced, can also be offshored because of better telecom infrastructure. Consequently, off-shoring of Infrastructure support services to India has significantly increased, with Global support Centers being setup in India by the large IT Companies.

Remote Infrastructure Management (RIM) is emerging as third outsourcing wave for Indian offshore services providers. The current off-shoring business from India is about US\$ 500 – 600 Million (Year 2006-07).

In technology terms, Infrastructure Management (IM) comprises of System Management, Network Management, Storage Management, Data back-up & Recovery, Applications like Data base management, Security, Performance monitoring & Audit and Help-desk.

IT Division of the Company is in a position to become a leading pure play service provider of Systems and Storage in IT Infrastructure Services. The Division has nearly a decade of expertise in Systems and Storage Administration and is in a position to provide services on System Administration, and Storage Management for customers' IT needs. The Division is in a position to help customers optimize their IT investments through its highly skilled and certified pool of engineers and cost-effective remote management capabilities, backed by robust processes.

The Division has over the years, been working on system administration and system management domains in the USA and now intends leveraging the same skills in the Indian market, to handle the customers needs, relating to skilled resources on IBM AIX and IBM Tivoli. With highly skilled and experienced and certified consultants working at global blue-chip clients' sites, global exposure through projects executed in 9 countries and a support network in India covering all the metros, the Division is amongst the largest IBM focused Infrastructure services companies.

Apart from IBM, in the last 6-8 months business associations have been developed with blue-chip IT MNCs in India, which we intend leveraging further in the current year.

The IT Division has a production method, which integrates People, Process and Services through use of technology, to meet the high expectations of our enterprise customers. Our managed services leverage economies of scale and expertise that add value and provide benefits over and above cost reduction such as higher SLA, reduced deployment time and better alignment of IT functions with business goals.

REDEMPTION OF DEBENTURES

Redemption/repayment to the holders of 19.5% Non Convertible Debentures issued on private placement basis and 16% Partly Convertible Debentures will be made in accordance with the provisions contained in the Scheme of Restructuring and Arrangement approved by the Hon'ble High Court of Delhi (refer to note 3.4 of Notes to accounts in schedule 12 of Accounts annexed).

FIXED DEPOSITS

The Company Law Board (CLB) had passed an order dated September 10, 1998 rescheduling the repayments to fixed deposit holders, which now constitutes part of Scheme of Restructuring and Arrangement approved by Hon'ble High Court. In pursuance to the said order, the Company has paid a sum of Rs. 24 Crores (approx.) to various categories of depositors including payments in hardship cases. The balance amount would be paid to the deposit holders in terms of the provisions of the Scheme of Restructuring and Arrangements approved by the Hon'ble High Court of Delhi (refer to note 3.4 of Notes to accounts in schedule 12 of Accounts annexed).

DIRECTORS

The Board of the Company on December 20, 2006 appointed Mr. Naresh Kumar Jain as Managing Director for a period of one year. His appointment was placed for the approval of shareholders at the AGM held on December 27, 2006 and the same was approved by the members.

The appointment of Mr. Jitendra Tuli as Director of the company was placed before the members of the company at its AGM held on December 27, 2006 the resolution for the same was approved by the members.

DIRECTORS' VIEW ON AUDITORS' OBSERVATIONS

Management response to the various observations of the auditors' even though explained wherever necessary through appropriate notes to the Accounts is reproduced hereunder in compliance with the relevant legal provisions.

Reference para 4(g)(i) of the Auditors' Report

The Company has, in general, followed the accrual basis of accounting for preparing its accounts. However, interest on certain borrowings is accounted

for on cash basis due to delay in approval of Scheme of Restructuring and consequent hardship/practical difficulties involved in obtaining relevant tax exemption/credit etc. specially in case of retail investors. In view of the fact that any other practice would have adversely affected a large number of retail investors approx. 16,000, it was felt that the present practice would be prudent in the current situation and payments to Depositors and Debenture-holders will be made and accounted for in accordance with the plan approved by Hon'ble High Court under Scheme of Restructuring & Arrangement and subsequent proposed modification of the Schedule of repayment subject to the approval of the Hon'ble High Court of Delhi due to delay in implementation of the SORA on account of pendency of modification of charges/withdrawal of legal action against the Company by certain Financial Institution. (Note 11 of Notes to Accounts in Schedule 12 of Accounts annexed)

Reference para 4(g)(ii) of the Auditors Report

The business of the company was re-organized under a Scheme of Arrangement sanctioned by the High Court of Delhi, New Delhi vide its order dated April 16, 1990, effective from April 1, 1990 under the provisions of Sections 391/394 of the Companies Act, 1956 and all units of the company existing at that time were re-organized under four separate companies, including this company, namely, DCM Limited, DCM Shriram Industries Limited, DCM Shriram Consolidated Limited and Siel Limited.

There are various issues relating to sales tax, income tax, etc., arising/arisen out of the re-organization arrangement, which will be settled and accounted for in terms of the Scheme of Arrangement and memorandum of understanding between the companies involved, when the liabilities/benefits are finally determined. The final liability, when determined, would in case of the company, be limited only to one third of the total liability. (Note 15 of Notes to Accounts in Schedule 12 of Accounts annexed)

DIRECTORS' RESPONSIBILITY STATEMENT UNDER SECTION 217

Corporate Governance Philosophy

Corporate Governance is about credibility, transparency and accountability of the Board and Management towards shareholders and other investors of the Company. We believe in a Board of appropriate size, composition and commitment to adequately discharge its responsibilities and duties. We consistently review on a periodical basis all systems, policies and delegations so as to establish adequate and sound systems of risk management and internal control. Given below is a brief report for the period July 01, 2006 to March 31, 2007 on the practices followed at DCM Limited towards achievement of good Corporate Governance:

A. Composition of the Board:

As on March 31, 2007 the Board comprised of six Directors, namely, Dr. Surendra Nath Pandey, Chairman; Mr. Naresh Kumar Jain, Managing Director; Mr. Samir Kumar Das; Mr. Subhash Chander Kapur; Prof. Joginder Singh Sodhi and Mr. Jitendra Tuli. All the Directors are non-executive and independent directors except Mr. Naresh Kumar Jain, Managing Director of the Company. Mr. Samir Kumar Das and Mr. Subhash Chander Kapur are the nominee directors of UTI and LIC respectively. The Composition of the Board is in conformity with the Listing Agreements. All the directors bring with them rich and varied experience in different facets of the corporate functioning. They play an active role in the meetings of the Board. None of the directors have any pecuniary relationship with the Company.

B. Tenure:

As per the statute, at least two third of the total strength of the Board of Directors shall be subject to retirement by rotation. Further one third of the retiring Directors are required to retire every year and, if eligible, qualify for re-appointment. Accordingly, Prof Joginder Singh Sodhi, Director, who is longest in office is liable to retire by rotation at the 117th Annual General Meeting and being eligible, offers himself for re-appointment. MANAGEMENT DISCUSSION AND ANALYSIS**Industry Structure and Developments**

The Indian Textile industry occupies an important place in the economy of the country because of its contribution to the industrial output, employment generation and foreign exchange earnings.

India at this juncture, with large cotton availability and good scope to increase the yield of cotton per hectare, has the additional advantage of skilled labour and management. In this scenario, one can safely conclude that the growth of cotton yarn production in India will only intensify in the coming years.

To help the Industry grow Government has provided a time bound scheme called Technology Upgradation Fund (TUF) which provide five percent reimbursement on the interest charged by the lending agency on a project for capital expenditure for upgrading/expansion of existing facilities. VAT has been implemented in most of the states, which is beneficial to the operation of the division.

Under WTO agreement, the USA, Canada & European Countries have removed quotas on textile exports. With this, huge demand of textile goods is emerging in India. The demand is also buoyed up because of Indian economy growing continuously. Benefit of this will accrue to the organized sector making textile products.

TEXTILE DIVISION

The Division has a spinning mill of 56,628 spindles producing cotton carded and combed yarns. The mill is located at Hisar in Haryana and has Branch Office at Delhi. Yarn is sold in domestic market and is also exported to Far East Countries, Egypt, Portugal & Bangladesh.

The project to install 26,400 spindles was envisaged to be implemented in two phases of 14,400 spindles & 12,000 spindles. The phase-1 of 14,400 spindles has been in 100% production from November, 2006. Production & quality of the project has been as forecasted and products are being accepted by the customers.

The production of phase-2 of 12,000 spindles has started from June, 2007 and 100% production shall be from August, 2007.

Opportunities & Outlook

The profitability of cotton spinning sector has improved considerably in the previous year. Demand for cotton yarn in India is rising as more & more international companies are sourcing their requirements from India. There have been frequent media reports on increasing interest of international sourcing organization for garments and textiles from India. They are opening new offices in the country and offices already operating in the country are being upgraded and expanded. Coupled with likely availability of good raw material at reasonable prices because of spread of superior seeds, profitability of cotton spinning sector is likely to improve further. With this in view, in order to avail the said growth opportunities the division has decided to further expand its capacity. As per current plans its installed capacity would be increased to 1,03,236 by 2009-10.

Manpower Development/ Industrial Relations :

The industrial relation of the management with workers are very cordial.

The knowledge, competency and skills of people are being continuously developed to support the employees to become effective leaders. Training of the employees is a continuous and integrated process. Prior to training competency of each employee is being assessed to identify potential of individuals. Training and mentoring programs are designed accordingly. The belief in investing today in training is to create tomorrow's leaders. Continuous experimentation with ways to improve the quality and productivity of our processes is going on, so as to promote the culture of excellence. The unit employs 1162 number of people.
