OPERATIONS

The Chlor-Alkali Industry is going through a difficult phase. The capacity utilisation rate of the industry is only around 65%. The main raw material for manufacture of caustic soda is power, the cost of which is prohibitive in India as compared to Middle-East and Europe. The liberalisation has hit the Chlor-Alkali Industry. Your Company's performance which is directly related to the performance of the Chlor-Alkali Industry was also affected.

The new marketing strategies for the new products is giving positive results but the full impact will be felt in the forthcoming years.

DIRECT & INDIRECT TAX CLAIMS/CONTINGENT LIABILITIES

As stated in Schedule 26 of the accounts, your Company has received demands under Income Tax Act amounting to Rs.12.96 million pertaining to previous years of which the Company has already paid Rs. 12.96 million under protest.

In the case of Excise, the Company has received demands for its activities at Rampur and Goa, based on narrow and inappropriate interpretation of the relevant enactment. Their demands have either been 'stayed' by appropriate authorities and/or are being contested.

No Provision has been made in respect of these demands as the Company has been advised that they are not in accordance with the provision of the law.

DEMATERIALISATION OF SHARES

In its efforts to provide the best services to its investors, your Company has entered into an arrangement this year with Central Depository Services (India) Limited for dematerialisation of equity shares. As per SEBI's directive, with effect from June 26, 2000, all investors can offer delivery of Company's shares in dematerialised form only.
