^{*} Executive Director

from the Chairman

Dear Shareholders,

The year 2004 began on a promising note with buoyant industrial growth and prospects of a normal monsoon. The general elections in March/April, 2004 resulted in a change of Government at the Center, and inspite of initial apprehensions, the UPA Government has carried forward the reform process despite the opposing pressure from different coalition partners. The general buoyancy in the economy, aided by surging foreign exchange reserves, increasing FDI and FII inflows and with the Stock Exchange Index at an all time high, has instilled confidence in the Government and has enabled the economy to cope with rising oil prices and the resultant inflationary pressures from a peak rate of 8% in August, 2004 has now declined to just below 5%. This confidence was further demonstrated when the country did not seek external help in coping with the Tsunami Disaster.

It is a matter of considerable satisfaction that inspite of pulls and pressures of a coalition polity, major economic reforms have not been sacrificed in the recently pronounced Central Budget. The Government's commitment to economic reforms was clearly demonstrated by the Banking Sector reforms announced a few days earlier, going ahead with the implementation of Value Added Tax (VAT) and with the continued reduction and rationalisation of indirect and direct tax regime. On the corporate tax side, an intelligent redefinition of three point equilibrium between tax rates, surcharges depreciation has been proposed. However, a less welcome and indeed. comprehensible, is the proposed introduction of a Fringe Benefit Tax that seeks to hunt down and bring to tax what has been rather unkindly and expansively termed "disguised" employee perquisites. This could adversely impact corporate profitability.

On the operational side, the Company has witnessed encouraging growth in the Publication Inks segment. However, the Liquid Ink business suffered considerably due to high input cost arising out of increase in crude price. The firming of crude oil price has led to rise in prices of petro based products which are the major inputs of the Company's liquid ink business. In the absence of commensurate hike in the sales price caused by competitive pressure,

the margins were under pressure. Moreover, increase in power tariff and cost of transportation have aggravated the situation further.

During the year under review, your Company witnessed a moderate increase in net sales which stood at Rs.2445.07 million against Rs. 2161.66 million in the previous year. The pre-tax profit of Rs.113.83 million was higher than Rs.94.57 million earned in the previous year inspite of higher raw material cost during the second half of the year due to price hike of petro-based inputs. This was made possible due to better product mix, improvement in yield in various units and strict expenditure control. The higher tax provision in the current financial year led to a post tax profit of Rs.75.22 million against Rs.75.60 million in the previous year.

During the year under review, the name of the Company was changed from "Coates of India Limited" to "DIC India Limited" pursuant to a fresh Certificate of Incorporation dated 6th August, 2004 from the Registrar of Companies, West Bengal. The name of the wholly owned subsidiary has also been changed from "Coates Coatings India Limited" to "DIC Coatings India Limited" with effect from 29th July, 2004.

The operations of the subsidiary, DIC Coatings India Ltd., was affected due to increase in raw material cost arising out of increase in prices of petro based inputs. However, the Company witnessed growth in all the segments, save and except, Aerosol Container which was under pricing pressure due to imported deodorant

products. Tube Moreover, Coatings business also witnessed growth in spite of price being offered by competitors thus reflecting the strong brand image of the Company. The fall out of these measures have helped the subsidiary to post an increase in turnover from Rs.237.27 million in 2003 to Rs.274.38 million during the current year. The profit before tax of Rs.34.78 million marginally increased as against Rs.33.88 million last year. after Tax, however, registered a marginal decline at Rs.20.82 million as against Rs.21.70 million in the previous year.

During the year under review, the Company has set up a state of the art new Lamination Adhesives Project within the existing DCIL's factory site at Bangalore with the technical support of DIC, Japan and the Company completed trial runs and commenced commercial production in the month of December, 2004. The estimated capital cost of the project stood at Rs.29.68 million.

Keeping in mind the future growth and the needs of the Company to deploy resources in a balanced manner, your Directors have recommended a dividend of Rs.3.50 per share.

I join the Board in expressing our sincere thanks to Messrs N Tsuji and K Kudo who resigned from the Board during the year under review. I also welcome Messrs M Saito and P Koek for joining the Board as representatives of the Parent Company. I am sure their appointments at the forthcoming AGM, will have your endorsement.

DIC INDIA LIMITED

The Company has been constantly striving to attain higher internal efficiency to combat the pressure imposed by the external sources and has been virtually successful in the same which is reflected in the satisfactory performance in spite of the loss of the highly remunerative Adhesives business. The Company would lay further focus on improving the operating margins through better productivity and greater focus on logistics. It is also anticipated that the expected demand growth in the domestic market will lead to better business prospects for the Company. With the continued support from the Parent Group,

the Company's efforts to upgrade the technology and equipment will enable the Company to put itself in a stronger position to face challenges of the future. The Company's focus on Research and Development has enabled it to develop certain environment-friendly products to cater to some niche markets. Given your continued support, I look forward to the future with confidence.

Kolkata 4th March, 2005

J. N. Sapru
