

As the planet
grapples with
climate change...

We achieved
the lowest
carbon footprint
in the cement world.

About Dalmia Bharat Limited

Dalmia Bharat Limited (DBL) has been engaged in nation building through the manufacture of quality cement since 1939.

The Company is one of the leading cement players in India, the world's second largest cement manufacturing nation.

The Company enjoys market leadership with growing market share and is a pioneer in super speciality cement used in the lining of oil wells, railway sleepers and air strips, among other customised downstream applications.

Mr. Mahendra Singhi, Group CEO Cement, Dalmia Cement (Bharat) Ltd. with Mr. H. E. Ban Ki Moon, Secretary General, United Nations at the Paris Climate Agreement signing ceremony.

Responsible global citizen

- Dalmia Bharat plays a leadership role in combating the challenges arising out of climate change.
- Dalmia Bharat, represented by Mr. Mahendra Singhi (Group CEO, Cement), was invited to the historic Paris Climate Agreement signing ceremony by

Mr. H. E. Ban Ki-moon (Secretary-General, United Nations).

- This historic event recorded 174 countries and EU signing the landmark agreement in the course of a single day.
- The agreement is widely considered to be a key milestone in the transformation of the world to a low carbon environment

through the use of low carbon technologies.

- What made this occasion special for Dalmia Bharat was that the company was one of only two Indian companies represented the country's vast business sector at the Paris Climate Agreement signing ceremony.

reduction in carbon footprint

69%

increase in EBITDA

50%

growth in EBITDA per tonne

9x

increase in profit after tax

Dear Shareholders

“Passion underlines our commitment to deliver through sustainable innovative measures.”

Mr. Puneet Yadu Dalmia and Mr. Gautam Dalmia, Directors of Dalmia Bharat Limited, highlight the Company's strategic direction

We believe that when you see passion in people and you provide them with an autonomous environment to support innovation, this enhances pride amongst employees. This pride enables employees to challenge their own assumptions and build a culture of consistent improvement in productivity.
