**2. DIVIDEND:**

In view of the need to conserve the resources for the future growth, no dividend has been considered by the Board.

**3. PRESENT OPERATIONS & FUTURE OUTLOOK:**

During the year under consideration, the Company has mainly focused on increasing the range of the Company's products with a view to create additional customer base and thereby increase the Turnover of the Company. The strategy succeeded and the total sales of the company increased by about 5% inspite of heavy recessionary trends and lower demand in the industrial sectors. Although the exports of the company suffered due to the disturbed middle east markets, the local sales did well due to wider range of our products and increased customer base.

The Indian economy continues to remain sluggish and the industrial consumption low. The GDP projections for the coming year has been revised downward by the government. However, it is expected to improve in the later part of the year.

Overall, the Company expects to achieve its sales and profit targets during the year ahead, with better sales networking and further increase in its product range.
