### MANAGEMENT DISCUSSION AND ANALYSIS :

#### OPERATIONS :

The passenger car segment of the Automobile Industry reported about flat sales. Maruti Udyog Limited retained its market share of 58% with Hyundai Motor being the number two with 15% market share. Tata Engineering increased its market share from 7.7% to approx. 11% with increased turnover of its brand, Tata Indica.

The multi utility segment saw a drop in sales by about 3%. The market leader Mahindra & Mahindra reported flat sales. Toyota Kirloskar which reported significant jump in sales in the year 2000-2001, also reported a marginal drop in sales.

In the two wheelers segment, Hero Honda, the market leader further consolidated its position reporting increase of 38% over the previous year. Another player in this segment which reported significant advance was Yamaha Motors wherein the sales grew by 43% over the previous period.

Honda Motorcycle and Scooter India made its maiden entry in the Indian Industry and captured around 6% of the market in the scooters segment.

The Company made a gain of Rs. 11.77 lacs during the period ended 31<sup>st</sup> March, 2002 on account of exchange rate fluctuation as compared to the previous year gain of Rs. 192.74 lacs.

The personnel costs have risen on account of increases in manpower and structured salary & wage increases.

#### Opportunities and Threats :

The two wheeler segment of the Automobile Industry is expected to further consolidate and maintain the tempo of growth during the next financial year. The products currently being supplied to Hero Honda, the No. 2 customer of the Company account for nearly 20% of the total turnover and the Company expects it to improve further.

With the introduction of Honda Motorcycle and Scooters India and resurgence of Yamaha Motors, the Company is expecting to drive substantial growth in the coming year.

As there are many new entrants in the auto component sector of the Industry, the competition is expected to be stiff.

#### Segment wise Performance :

The Company's operating business is organised and managed according to the nature of product, with single Primary Reportable Segment comprising of manufacturing and supply of electrical automotive components. The details of segmental reporting is given at Schedule 18B(24) of the Annual Accounts.

## OUTLOOK:

### Current Operations:

The Company achieved a Net Sales of Rs. 214.83 crores against Rs. 205.43 crores in the previous year. This would have been higher but for less offtake by major customers.

The projected Net Sales figure for the year 2002-2003 is Rs. 211.90 crores. The four wheeler component is expected to decline marginally.

However the buoyancy in the two wheeler segment of the automobile industry will enable the Company, barring unforeseen circumstances, to maintain its profitability levels.
