Ludhiana.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Developments:

The global textile industry is undergoing growth, restructuring and relocation in the wake of dismantling of restrictions on the movement of textile products across the world. The industry is growing at a rapid pace in countries like China, India, Pakistan, Bangladesh, Srilanka and East European countries. China has emerged the largest global player in the international textile business with a turnover of about \$280 bn, of which exports alone accounted for \$146 bn in 2006.

Future Outlook

The fundamental growth drivers remain strong. There would be growing opportunities in the international market and domestic market. Besides the growth opportunities in the world market consequent to opening of the world trade in 2005, there exists immense opportunities due to increased consumption that is expected to take place due to growing income. So consumption of fine raw wool will be increased in India. We try to make more negotiation with other companies in Australia and in European countries for procurement of yarn and other side looking prospective manufacture in India.

It has been our continuous endeavor that we diversify the products so that the company can offer to the buyer more and more value added products.

Business review Segment Performance

As you know now your Company has started to operate two segments i.e Stock & Shares & Textile. The Performance of different segment as follow:

Division	Turnover (In Lacs)	Percentage
Textile	68.06	10.00
Stock & Shares	618.04	90.00
Total	686.10	100

A separate report on Segment attached for your reference.

Management of Risk

With respect to export business you are aware that the Government has not continued any provisions for tax free status for export profits under Income Tax.

The deduction of export profits available U/s 80HHC of the Income Tax Act has passed into history from A.Y. 2005-06 on account of non pronouncement of extension of dates in the Finance Bill passed by the Parliament. Consequently the company will not be benefited and their entire profits will now be subject to tax.

The Management Discussions and Analysis explaining the objectives of the Company, the opportunities and concern, the outlook for the future, the risks and concerns have to be read with the meaning of relevant applicable laws and regulations. The actual physical performance may differ materially from those explained hereinabove.

Internal Control and their Adequacy

The Company has a proper and adequate internal control system commensurate with its size and operations to ensure that all its assets are safeguarded and protected against losses.

The internal control system and its adequacy thereof is constantly reviewed by the Audit Committee

Financial Operational Performance

Please refer Director Report for Financial Performance.

Material Development in Human Resources / Industrial Relations

The Company believes that people are the key ingredient to the success of an organization. Looking after people makes good business sense because, if people are motivated, service excellence will follow. The Company recognizes the importance and contribution of its Human resources for its growth and development and is committed to the development of its people.
