**Operations and Future Outlook:**

The Indian economy, after exhibiting strong growth during the second quarter of 2008-09, has experienced moderation in the wake of the global economic slowdown. A number of factors inimical to growth have intensified in 2008 such as a sharp elevation in global inflation rates specially crude oil, tightening in credit and equity markets and global slowdown in growth. India did not remain unscathed. Overall, economic growth slows down. Financial markets in India, which, by and large, remained orderly from April 2008 to mid-September 2008, witnessed heightened volatility subsequently reflecting the knock-on effects of the disruptions in the international financial markets and the uncertainty that followed. The pressure on financial markets mounted with the credit spreads widening to record levels and equity prices crashing to historic lows leading to widespread volatility across the market spectrum. The turmoil transcended from credit and money markets to the global financial system more broadly. Added to this, there was a significant deterioration in the global economic outlook.

In view of the current scenario due to the factors mentioned above the Company's performance was being hit which led to the decrease in the total income of the Company from Rs.85.69 Lacs to Rs.37.98 Lacs and bottom line has turned into negative and incurred net loss of Rs.34 lacs as compared to profit of Rs.5.94 Lacs approx.

**Dividend:**

Owing to inadequacy of profit, your directors do not recommend any dividend for this financial year.

**MANAGEMENT DISCUSSION & ANALYSIS REPORT****Industry Structure & Developments**

The company is a non-banking finance company, a segment, where scope for growth always exists, but for large size companies having bigger infrastructure and deeper pockets because demand for finance would always have an upward trend. However, the small size companies shall not be able to reap such benefits because of lesser opportunities. This seems to continue, however, appropriate risk calculation and management is the key factor in designing and maintaining finance portfolio and earning profits under limited resources.

**Segment- wise & Product – wise performance**

The company belongs only to one segment; however, it has been deploying its resources into hire-purchase, securities trading, loans and advances. The company's management has made regular endeavors for improving operating efficiencies despite of breakdown of financial system globally during the year under review

**Outlook**

As competition gets tougher amid a slow business environment, company's management carves out survival strategies to stay afloat. The company's management has adopted due measures in cutting the expenditure account. The company is adopting various vital measures which is aimed to ensure a policy regime that will enable the company to recoup growth; to continuously monitor global and domestic conditions and respond swiftly and effectively through internal measures so as to minimize the impact of the adverse developments and reinforce the effect of the positive developments and rebuild the confidence of the investors.

**Risk & Concern**

The primary risk for financial company is rapid and large shifts in exchange rates and uncertainty over interest rates besides tough competition prevailing in the market. Weekend investment capacity counts for concern for the industry.

**Internal Control System and its adequacy**

The company has adequate internal control procedures in commensuration with its size and nature of business at all desired levels.

**Discussion on financial performance with respect to operational performance.**

The financial performance of the company under reported circumstances have been directly related to efficiency in all areas of functional management such as marketing, human resources and finance. Continuing trend of deep contraction in the global economy and financial sector has led to a massive reduction in operational output.
