### OPERATIONS

It is a matter of serious concern for your Board of Directors to witness continuous slide in the overall operations of the company during the year under review. The performance of your company has been adversely affected due to inadequate working capital funds and tough market scenario. As a result, your company could achieve a turnover of Rs. 445 lakhs during the year as compared to Rs. 605 lakhs in the last year. The company has incurred a net loss of Rs. 1235.9 lakhs as compared to the net loss of Rs. 992.9 lakhs during the last year. However, the company has performed well in the Export Market by achieving an export turnover of Rs. 117 lakhs during the year as against the turnover of Rs. 79 lakhs in the last year.

### REFERENCE TO BIFR

As reported last year, your company is a Sick Industrial Company within the meaning of Section 3(1)(o) of the Sick Industrial Companies (Special Provisions) Act, 1985, in view of the erosion of its entire net worth at the end of 30th June, 2000. A reference was made to the Board for Industrial & Financial Reconstruction (BIFR) under sub-section (1) of Section 15 of the SICA. However, the reference made by the company was dismissed as time-barred by the BIFR against which, your company has preferred an Appeal before Appellate Authority for Industrial and Financial Reconstruction (AAIFR).

As the company continues to remain a Sick Industrial Company, a Reference shall be made to BIFR in accordance with the provisions of the Sick Industrial Companies (Special Provisions) Act, 1985.

**A. CONSERVATION OF ENERGY**
**a. Energy Conservation Measures taken :**

Energy conservation is receiving high priority. To achieve this objective the Company on continuous basis :-

1. Closely monitors energy consuming equipments. The company surrendered 800KVA power load out of 1000KVA sanctioned power load over a period of three years and started the generation of power from its own generator sets.
  2. Maintains close liaison between energy generating centres and consuming points.
  3. Makes optimum use of steam, the company has started to generate steam by replacing of fuel with the use of Rice-Husk/baggasse in place of coal.
  4. Most of the Steam lines have been re-insulated to save the heat loss and thus saving the steam energy.
  5. All the condensate line properly modified and revised piping arrangements have been done to collect all condensate discharge and the same is re-used to heat the water to feed in boiler, resulting saving in fuel consumption.
- b.
1. The Company has installed SMC i.e. for reduction in consumption of energy to save Power Consumption during starting at low-torque for 300 H.P.4 Speed Motor.
  2. The management endeavors to reduce consumption of energy and exploration/ research in new areas for reduction in energy consumption.
  3. Power capacitors have been added to improve power factor.
- c. Impact of measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production.
- The above measures taken for reduction in energy consumption have brought encouraging results, bringing about a saving in cost of production.
- d. Total energy consumption and energy consumption per unit of production as per Form A of the Annexure to the Rules :
