**Sulphurless Sugar - Healthy Sugar**  
India's only sulphurless sugar

## Quality products from Dhampure

Dhampure has a wide range of successful products in the market. Proof enough of their inherent quality and their ready acceptance by the people.

### Sulphurless Sugar

Dhampure sugar is India's first and only sulphurless sugar. Dhampure does not use sulphur or harmful chemicals to bleach the impurities in sugar to make it look white. Instead, it uses the unique Ion Exchange Method to genuinely clean the sugar. That is why Dhampure also meets the strict European Union Standards for sulphur content in white sugar. The sugar that comes to you is not only sulphurless but also scum-free and non-acidic. Its hygienic packaging ensures that your hands are the first to touch the sugar.

### White Sugar Sachets

India's only sulphurless sugar is now available in convenient packs for office use.

### Gur

Made from select varieties of sugarcane, Dhampure Gur is not only natural but also chemical-free. Ordinary and loose gur has harmful chemicals in it. Sulphur dioxide, hydrosulphite, formic acid, bleaching chemicals and preservatives to name a few. The manufacturing process and handling is so unhygienic that it leads to dirt, scum and insects getting mixed with gur as it reaches you. Dhampure Gur takes extra care to ensure cleanliness and hygiene. Packed through automatic machines at the site of manufacture, it is ensured that its taste, flavour, and purity are retained. So, go ahead and experience the goodness of Dhampure Gur, yet another sweet offering from the house of Dhampure.

### Brown Sugar

Dhampure Demerara Sugar is a natural brown sugar. It is ideal for tea, coffee and for topping hot cereals. Dhampure Demerara Sugar has fewer calories than ordinary sugar and a rich dose of natural minerals. Hence, your diet becomes healthier. It brings out the aroma of coffee beans. Not only this, it also melts five times faster than ordinary sugar! Early Egyptian coffee drinkers boiled powdered coffee beans with natural brown sugar to produce a thick syrupy coffee. The rich aromatic Demerara Sugar adds a great undertone to an already delicious brew! It is also suitable for cakes, pastries, and other bakery items.

### Brown Sugar Sachets

Dhampure Demerara Sugar is also available in sachets.

### Dhampure Mishri

Mishri has always been used as an offering to the Gods. However, mishri as we knew it was again dirty and unhygienic. Since we believe that an offering to the Gods should be pure, we decided to launch a new avatar of mishri. This was Dhampure Shuddh Mishri, India's first sulphurless and packaged mishri. Made out of completely mechanized process and untouched by hands, Dhampure Mishri is as pure as one's faith.

### Pharma Grade Sugar

Dhampure is a household name known for its commitment to health. In view of that, when it comes to making Pharma Grade Sugar (which has to be absolutely pure), we go a step ahead. Dhampure Sucrose IP Pharma Sugar has all the qualities to make it the finest Pharma Grade Sugar.

Unlike other sugars in the market, Dhampure Sucrose IP Pharma Sugar is not bleached using sulphur dioxide, thereby making it the only sulphurless sugar in India. Complying with the IP standards, DSM refines its sugar using phospho-floatation and a two-stage (Acrylic and Styrene based Resin) ion exchange column, while other pharma sugar manufacturers reprocess the normal sulphitation sugar to produce pharma grade sugar. The EC- 2 grade sugar that Dhampure has been producing is of category IP sucrose and its Icumsa is below 25. It is not only non- acidic, but it is also absolutely scum-free. This process is accepted internationally because the sugar so produced, is sulphurless and of higher purity necessary for the pharma standards. Hence, proving our continual pursuit of quality.

No wonder that it is also one of the few to be IP certified (certified by Drugs Controller of India). In keeping with DSM's distinguished tradition, Dhampure Sucrose IP Pharma Sugar will undoubtedly raise the existing standards for Pharma Grade Sugar.
