

our time starts now!

- > Leveraging the experience of the past.
- > Embarking on pioneering initiatives for the present.
- > Creating a sustainable sugarcane product company for the future.

Forward-looking statement

Statements in this report that describe the company's objectives, projections, estimates, expectations or predictions of the future may be 'forward-looking statements' within the meaning of the applicable securities laws and regulations. The company cautions that such state-

ments involve risks and uncertainty and that actual results could differ materially from those expressed or implied. Important factors that could cause differences include raw materials' cost or availability, cyclical demand and pricing in the company's principal markets,

changes in government regulations, economic developments within the countries in which the company conducts business, and other factors relating to the company's operations, such as litigation, labour negotiations and fiscal regimes.

vision

- To re-establish as the most efficient sugar company in India.
- To become a global sugar company by leveraging rich technical expertise.
- To optimise the utilisation of cane and cane residue in the most eco-friendly manner; to become an integrated player with co-generation and alcohol capabilities along with sugar plants.
- To continuously bring down the cost of conversion.
- To optimise the value of stakeholder investments with a continuous improvement in financial performance.
- To attain the highest level of accountability, corporate governance and shareholder value.
