## PERFORMANCE

As you are aware, the period under review commenced with a slow down in the economy and the related financial sector was adversely affected and your company has been affected by these factors. No fresh deposits were collected from the public during the year under review. With the economy not picking up during the year, fresh disbursements by way of hire purchase and

leasing were not huge and income from such activities came down substantially on account of the low volume.

With the approval of the shareholders in the last Annual General Meeting, your company started diversifying its activities. As a first step, your company commenced the business of operating Tourist Cars from 27th September, 2000. The six months' operations resulted in a turn over of Rs.79.26 lakhs and this has contributed substantially to the bottom line of company i.e., nearly 43% of the total income.

The total income of the Company was Rs.182.56 lakhs against Rs.143.80 lakhs in the previous period comprising nine months. The expenditure was Rs.175.74 lakhs, which includes interest and Bank charges of Rs.63.34 lakhs and a provision of Rs.13.13 lakhs against non-performing assets. The operating profits came to Rs.6.82 lakhs a marginal increase over last year's Rs. 5.48 lakhs. Taking into account depreciation of Rs.18.46 lakhs, the operations for the year resulted in a loss of Rs.11.64 lakhs. A provision of Rs.5 lakhs is made, for Taxation as against Rs.29.00 lakhs in last year. Net Loss, after taxes, works out to Rs.16.64 lakhs while the cumulative losses taking into account General Reserves and previous year's losses come to Rs.56.46 lakhs. Your Company is continuously monitoring the expenses and activities for effecting cost reduction wherever possible.

Your company has fully conformed to the prudential norms prescribed by RBI on various parameters. The capital adequacy ratio is 47.93% as against the minimum ratio of 12% prescribed by RBI.

## DIVIDEND AND RESERVES

Since the Company had not earned adequate profits during the year under review, your directors have been unable to recommend any dividend. No amount is being transferred to the special reserves due to the same reason. A sum of Rs. 14.90 lakhs has been transferred from General Reserves to Profit and Loss account.

### FUTURE PROSPECTS

The shake out in the NBFC sector has brought down the number of serious players in the market to a very few members. A few big players have entered the market grabbing a major portion of business. These players now competing are quite strong and big and hence competition is quite intense. Most of the medium sized NBFCs are therefore not able to function profitably as they face difficulty in accessing low cost funds, on account of stiff competition from larger entities and consequent dwindling business. With business avenues drying up and competition hotting up, the sector is in a state of decline. The outlook for the coming years for medium sized NBFCs like your company is very uncertain and unpromising.

The rating agency CARE has now modified the rating of your company from "BB(-)" to 'B'. Based on the volume of transactions, Reserve Bank of India has reclassified your company as an Investment Company. Under these circumstances, continuing only as a financial services company is no longer economically viable. Your company is planning to enter into other areas like insurance agency work, export and import, and Software Consultancy etc., in addition to Tourism and Travel business. Your Directors hope that if these diversifications take place in full measure in the coming years, your company would be able to become profitable in the near future.

### DEPOSITS

During the year under review your company has not accepted any fresh deposits from the public. The balance of deposits as on 31st March, 2001 came down to Rs.411.30 lakhs from Rs.435.12 lakhs on 31.03.2000. There were no overdue deposits on 31st March, 2001. There were however 40 cases of unclaimed deposits to the total value of Rs.7.31 lakhs on the date. Out of these, deposits to the value of Rs.2.87 lakhs have been paid and as on the date of this report there are 34 cases of unclaimed deposits for a value of Rs.4.44 lakhs. The deposit holders have been reminded to prefer their claims. As the Company has been reclassified as an Investment Company,

renewal of existing deposits was suspended from February 2001 and the Company proposes to repay all the existing deposits before 31.12.2002.
