<u>NOTICE OF AGM</u>	133

Dear Shareholders,

Quality, Accuracy and Trust are the three guiding principles on which this business was established and I am proud to state that with all the changing dynamics of the sector, these continue to govern our business and are even more relevant to us than before.

Every action taken by the Company is aimed at expanding our ability to cater to the needs of an ever evolving healthcare and diagnostics sector. Our mission is to be pioneers in this space and introduce new trends and techniques that will enable us to refine and drive healthcare improvement. Infact we believe that ours is the only Company today that offers the most comprehensive range of tests in our industry, which span from basic routine tests to many complex esoteric tests.

Built on an integrated platform which is supported by technology, we wish to help our patients with the best quality of diagnostic services. Superior quality with timely delivery is a strategic imperative for us, and to accomplish this, we employ a unique systems-based approach for our business execution. We recognize that in today's day and age in order to create a prominent change and shift, the incorporation of technology is critical. We have consistently utilized this tool to create a competitive advantage which enables us to stay relevant and deliver results faster and with high levels of accuracy.

Going ahead our strategy positions us well to work on our passion of creating meaningful transformation and awareness in this industry. We are optimistic that given our brand equity, ability to leverage scale and domain knowledge, we will be able to capture the latent potential in the market as we widen our reach. We will seek to expand our presence opportunistically with the support of our well-seasoned hub and spoke model.

Lastly, I would like to extend my sincere gratitude to all stakeholders who have given us unwavering support in this exciting growth journey. I would like to thank the members of the Board for their insights and advice which have greatly contributed to the advancement of the Company.

Warm Regards

Chairman & Managing Director

Dear Shareholders,

As a leading diagnostic services company, I am pleased to share with you an encouraging performance with 15% increase in our revenues and 16% in earnings after tax.

I can confidently state that we have been able to enhance the level of healthcare services. For the Financial Year ended March 31, 2017, both the number of patients tested at 13.3 million and the number of samples processed at 29.3 million have shown healthy growth YoY. As a consumer facing brand we continued to register a higher proportion of walk in patients as opposed to contribution from the institutionalized segment.

Our operation comprises 189 clinical laboratories, 1,759 patient service centres (PSCs) and 5,021 pickup points (PUPs) as of March 31, 2017. This relates to a strengthening of our offering not only in terms of addition to the chain of company owned laboratories, additional PSCs and growth in our PUPs but also in terms of offering a wider range of tests to offer accurate diagnosis. As at the end of FY2017 Dr. Lal PathLabs (DLPL) offered 1,110 test panels, 2,028 pathology tests and 1,561 tests pertaining to radiology and cardiology.

We have stayed true to our strategy of carefully creating capacity across the system while fully utilising available and existing resources. The development of our Kolkata regional reference laboratory is proceeding per plan with the civil works largely completed. The patient pool from the Eastern and North Eastern states of the country will be able to access the DLPL brand more conveniently as a result. As you would be aware, that outside of Delhi NCR region we are witnessing consistent improvement in growth trackers from the Eastern and Central states.

DLPL's focus on the Southern and Western states is underlined by a focused city approach where we are building both presence and visibility in centres identified for growth and which include cities such as Pune and Bengaluru. We continue to look at suitable opportunities to fill our gaps to accelerate this expansion.

We continue to make progress in Hospital Lab Management segment. This segment is one of the Company's building blocks. In FY 18, a renewed thrust shall be given to this segment.

Further, although the impact of demonetisation in Q3 FY 17 and surge in volumes from the epidemics in Q2 FY17 we saw in North last year have both dissipated to a large extent, our execution has not wavered. We are course correcting in the immediate term and there is a greater emphasis on tightening costs and processes in order to bring out better efficiencies that can contribute to the bottom line on a sustainable basis.

Our confidence in the model and the opportunity at large is driving us to expand our scale at an optimal pace as we implement our strategic vision of being able to bring our brand uniformly to patients across the country.

I would like to specially offer my appreciation to our Board for its continued guidance and for giving us the benefit of their rich experience.

I would also like to extend our gratitude to the innumerable investors, employees, vendors and patients for placing their trust in the DLPL brand. As a growing organisation I am optimistic about delivering a performance that is commensurate with our position as a leading component of the diagnostics space.

Warm Regards
