PRODUCTS LTD.

From the Chairman's Desk

Dear Shareholder,

Let me begin by extending warm welcome to the shareholders who are now a part of Dynamic Family. I also take this opportunity to update all our shareholders on the company's progress during the year 2006-07.

During the year under review your company's sales rose from Rs. 2864.75 Lacs to Rs. 3231.12 Lacs recording a growth of 9.30% and Profit reach to 266.95 Lacs from 246.15 Lacs. The implementation of the expansion project has been delayed and I personally regret for the same, but it was due to the fact that the acquisition of the land required for the expansion projects from GIDC has been delayed.

The additional land is required as the company has been advised by the environment consultants to plan the environment treatment plant as per the international standards. However the company already acquired the land and the status of implementation of the projects are as under :

At DPL Unit-1

The company is going into the backward integration process for manufacturing of Ethyl Acetate Plant. The project is already completed & commercial production is likely to be start from 1st August, 2007.

At DPL Unit-2

The company in this unit proposes to make expansion by installation of three plants (Plant A, B & C) for manufacturing of food colors & lake colors.

Plant A & C is expected to complete latest by November 2007. The commercial production will start from January, 2008.

Plant B is expected to complete latest by January 2008 and the commercial production will start from February, 2008.

Lastly I would like to take this opportunity to express my gratitude to the Board of Directors, banker, employees, suppliers and the shareholders for their instituted support and the confidence they have placed in our ability to make the company a great success.

With Best Regards,
Yours sincerely,

B. K. Patel

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The food processing sector is crucial for the India's development in the era of globalization. India is the world's largest producer of food next to china and holds the potential to acquire the numero uno status with sustained efforts.

The processed food industry is set to grow at more than 10% per annum driven by consumer demand, organized distribution and policy initiative by the government. The food color industry again in relation to food processing industry has enormous opportunities to grow at more than 10% annum.

Opportunity and Threats

The company sees exciting opportunities in global food color industry which according to the forecast by "The Frost & Sullivan", The Europe market for the food colors set to grow from \$ 290 Million in 2006 to \$ 301 Million in 2008, wherein it includes 40% of the synthetic food colors and if the demands for other countries are included the company has good opportunity for the export of the food colors.

The company sees the risk associated with the foreign exchange rate fluctuation in the recent times which put the pressure on the margin of the company. However the company has put in place the marketing efforts to compensate this loss by way of incremental market share.
