ANNUAL REPORT

2021-2022

31st Annual General Meeting

Chairman's Message "Creating Sustainability in Everything"

I am pleased to present to you our annual report for the year 2021 – 2022. EcoBoard Industries Ltd. had a successful year and closed it with renewed hope and vigour. I hold pride in the fact that we responded to the needs of our customers and created a strong foundation for future growth. We completed our financial restructuring by monetising our non-core assets and repaying our debts from preceding years. We devoted our energy towards the development of new products and their applications while expanding our market base.

With a sense of satisfaction, I would like to share that after years of struggle, EcoBoard® regained our business momentum and earned revenue of INR 35.73 Crores.

Through this year, we continued to focus on designing and manufacturing breakthrough products in both divisions (EcoEnergy division & the EcoBuild division). EcoRak™, which shows huge potential across industries. EcoRak™ directly replaces steel and wood panels to meet internal storage needs.

In continuation to our pioneering innovations including ultra-large wall panels and large structural flooring, we have recently initiated sustainable solutions for cold storage. We are currently executing a project with a multi-national company, converting a G+3 structure into advanced cold storage.

This year, the Indian cinema industry partnered with EcoBoard® to become more environmentally conscious during film production. The film crew of KGF2 used EcoBuild products to construct a prominent set for the movie and the art director praised our products for their realistic appearance and sustainability.

In another breakthrough for our company, EcoBuild products reached foreign shores, taking the agro-fibre from Indian farmers and earning revenue for the country.

EcoBuild Division: Through EcoBuild, the sustainable building materials division of EcoBoard®, we are enabling customers to reach their sustainability goals. We continued to be instrumental in substituting high carbon emission products like steel, gypsum, cement, etc. by creating alternative products that have a positive impact on the environment. We introduced a new product in

EcoEnergy Division: The alarming speed of climate change has led us to insist on the reduction of petroleum-based energy sources. The Indian Government is also promoting the production and use of Bio-CNG from waste. In the pursuit of sustainable bio-fuels, the demand for our EcoEnergy plants has been on the incline. The decades of CSTR technology expertise we possess in executing CNG projects is generating order for this division.

Both divisions are Carbon Capture and Storage (CCS) positive. Over the last 30 years of our existence, we have contributed to removing around 35 million tonnes of CO2 from the atmosphere.

EcoYou: Conscious Innovation Over the last 30+ years, we have been making huge strides in the space of sustainable building materials and our bioenergy division has not been far behind. As we move into a new era of growth and success, we will be consolidating all our offerings under one umbrella — EcoYou. We will continue to serve you through our EcoBuild and EcoEnergy divisions under this new brand. EcoYou encompasses our core value of conscious innovation. It represents our environment-centric approach to research and development. As we gradually transition from EcoBoard® to EcoYou, we remain dedicated to the cause of providing the world with products and solutions that are ecologically and economically sustainable.

I would like to extend my sincere thanks to each of you, our shareholders, for your long-standing support. Finally, on behalf of the Board, I would like to thank our amazing team for their continued hard work and commitment.

Sincerely yours,

Ramakrishna Raju Gottumukkala
Managing Director & CEO (Chairman)
