4. Management Discussions and Analysis

The Indian economy due to India centric problems has slowed down and in particular the electrical equipment manufacturing sector has suffered due to

- · The poor financial health of our ultimate customers who are largely the Utilities
- Reforms required to be implemented in power production sector by the Central and State Governments

These factors impacted your Company's operations both in terms of improving revenue and profits. Despite the above adversities, it is heartening that your Company's order book is healthy. Effort of your company to develop and acquire latest technologies has commenced yielding returns. During the year, your Company through its subsidiary Switchcraft Europe GmbH, Germany has won a prestigious order from Energex Limited, Australia for the supply Secondary Switchgear (Ring Main Units). The order is valued at around US\$ 84 million to be executed over 7 years. Key components for the Ring Main Units are to be manufactured in the new state-of-the-art facility in Harohalli, Karnataka setup recently at the cost of around Rs.80 Crores and in the manufacturing facilities available at German Subsidiary, Switchcraft Europe GmbH. Your Company also won substantial of export contracts in the Middle East & African Region for the supply of Ring Main Units and sophisticated Power Protections Systems manufactured by its Canadian Subsidiary, ERL Phase Power Technologies Ltd.

The steps taken by your Company in conjunction with subsidiaries to develop and bring to the markets products suitable for the Global & Indian market is starting to bear fruit; first substantial orders have been received and the Company would commence order execution during this financial year. Directors strongly believe that our strategy will stand the Company in good stead in years to come. It is heartening to note that the Company's international operations are becoming cash positive from the first quarter of current financial year 2013-14. Directors are expecting this trend to continue and that the subsidiaries would contribute to the Company's bottom line in years to come.

To ease the liquidity position of the Company and its subsidiaries, the promoters have been advancing money for over two years.

In pursuance to approval given by Shareholders, Company is completing formalities to raise around Rs. 50 crores by issue of equity shares to the existing shareholders on Rights Basis.

To improve margins, your Company has since been selective in accepting orders. Effective steps are being taken to improve operational efficiency and cut costs.
