53

With 53 million

[REDACTED]

a jump from 1 to 5 or 1 to 10 may appear as small numbers. But in a real country of one billion, these numerical shifts represent a large expansion in the offtake for water transportation systems. To put it in perspective, 1 is the equivalent of 10 million people. And 10 is the equivalent of 100 million. Almost three times the population of Australia and Canada. Whichever way one sees it, the scenario represents an attractive potential for Electrosteel's ductile iron pipes business. Whether India needs these pipes to create a water system where none existed or replace an existing network with upgraded infrastructure, [REDACTED]
