Emmbi Polyarns Limited

18th Annual Report 2011-2012

FROM THE CHAIRMAN'S DESK

"Emmbi sees the delivery of quality products as a duty not only towards its customers but also towards the society as a whole.
We at emmbi aim to make our products reliable and eco-friendly.
We sincerely hope that our endeavours can satisfy the needs of our customers and give fruitful returns to our share holders. "

Makrand Appalwar Chairman & Managing Director

EMMBI : AS WE SEE IT

Emmbi is perceived differently by different people, but for us it commonly signifies our happiness.

The name Emmbi is a combination of the two English alphabets -M and B which stand for the initials of our founder's father Mr. MB Appalwar. This is our way to present our respect towards elders and appreciate their contribution to our success. The letter " i ", to us is reminiscent of the culture and tradition of our great country India and is an indication of our never ending spirit, the spirit to carry on, and the spirit to turn the odds in our favour and emerge bigger and better than before. The blue ring signifies globalization and is a continuation of our gratitude towards our customers who have helped us make a mark internationally. The red arrowhead show the dynamic vision of the company while vouching to satisfy our customers and meet their needs at each and every point. We at Emmbi believe that Change is the only thing that is constant and as time changes we strive to progress, strong in bond with our customers, suppliers and share holders as an even larger family. At Emmbi we firmly believe "To know you is knowhow."

18th Annual Report 2011 - 2012

VISION

Emmbi's vision is to be a global leader in the field of Woven Polymer based products in multi-faced applications. We will achieve the same through an indepth knowledge in polymer processing and best manufacturing practices. We will augment our "state-of-the-art" manufacturing process with innovative product applications to increase the future sustainbility and growth for the country.

We are committed to the conservation of environmental resources. Company will work in generating the highest yield in "per kg polymer usage" in the products. We will work and develop products with highest level of recyclables.
