DIVIDEND

With a view to conserve resources, your Directors recommend withholding the Dividend for the year under review.

OPERATIONS**Vitrum Glass:**

The Division continues to manufacture over one million Amber Glass Containers every day for the pharmaceutical industry. With the help of Automatic Inspection Machines installed on all the four production lines, the Division is able to meet stringent specifications of pharmaceutical Companies and export quality Containers to neighbouring Countries. During the year under review, total exports (including third party exports) were Rs.4.19 crores. The Division has performed well during the year under review and is expected to do reasonably well during the current year.

Empire Machine Tools**a) MFTM (Metal Forming, Testing & Metrology) Division**

This Division is engaged in agency business covering a wide range of products which are broadly classified under Metal Forming machines and Metrology & Material Testing equipments. The Indian market was sluggish through the

year under review. The Division has been provided with a state-of-the-art Tech-Centre. This will help in providing Demo facilities and concept selling for some of the products marketed by the Division resulting in improved performance in the Current year.

b) MCAT (Metal Cutting & Allied Technologies) Division

Majority of business has been with Public Sector undertakings and Government factories like Railways and Defence. Private investment has been poor during the year 2001-2002 due to a near war situation. On account of good backlog of enquiries, the Division hopes to do better in the current year in terms of order booking. Although margins are reduced, all efforts are being made to keep average margins high and also to focus on areas which have higher margins. Due to a downtrend in the market situation in Europe, the Division expects better cooperation this year from European manufacturers.

Empire Chemicals

The continued recessionary trend in the economy has affected volume of business. However, there are signs of a mild recovery and the Division is quite hopeful of improving performance in the current year. In spite of liberalisation, the prospects of importing chemicals is adversely affected due to anti-dumping duties levied by Government under pressure from local industries. The performance for the current year will improve.

Empire Instrumentation

The general market conditions for capital items purchased in the country have continued to be poor. Technical Services and Annual Maintenance Contracts will be given a major thrust, and performance should improve considerably during the current year. Some new lines are being added. This should considerably boost business prospects.

Empire Industrial Equipment :

With the sluggishness still prevailing in the market place, the Division performed reasonably well in establishing some new lines, particularly in the Pollution Control and Port Sectors. With these sectors showing promise, and Oil and Gas sector showing signs of improvement, the business should be good in the coming year.

The Empire Institute of Learning :

This institute is an expanding educational institution in Mumbai, engaged in imparting quality education in India. It has been in collaboration with the Mountain State University, USA and the Cambrian College of Applied Arts

and Technology, Canada, and has recently entered into a collaboration agreement with the reputed Troy State University, Alabama, USA to deliver its MBA programs in Mumbai. At present the Institute has over 400 full time students who are studying towards such qualifications in the Mumbai campus. A further 200 students for various programs will be enrolled in the new academic session commencing from August 1, 2002.

Capital Expenditure :

Capital expenditure incurred during the year amounted to Rs.2.37 Crores as against Rs.7.86 Crores in the previous year.

DIRECTORS' RESPONSIBILITY STATEMENT :

As stipulated in Section 217(2AA) of the Companies Act, 1956, your Board of Directors confirm as under :

- i) that in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanations relating to material departures except Accounting Standard AS-15 in respect of provision of Gratuity & Retirement Benefits which have been accounted on cash basis as referred in Note No.6 of Schedule N.
- ii) that the Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit or loss of the company for that period;
- iii) that the Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;
- iv) that the Directors have prepared the annual accounts on a going concern basis.
