Directors' Report

To:
The Shareholders
Engineers India Limited

Ladies & Gentlemen,

Your Directors have great pleasure in presenting the 41st Annual Report together with Audited Accounts of the Company for the year ended March 31, 2006 along with the Auditors' Report and Review of the Accounts by the Comptroller and Auditor General of India.

2005-06 IN RETROSPECT

EIL continued its good performance during the year 2005-06. The salient features are as follows :

- Turnover of the Company was Rs. 79048 lakhs.
- Operating profit was Rs. 13311 lakhs, representing a growth of more than 22% over the previous year.
- Profit Before Tax (PBT) was Rs.19978 lakhs, representing a growth of 19.8% over the previous year.
- Profit After Tax (PAT) was Rs.13864 lakhs, representing a growth of more than 23% over the previous year.

The turnover was lower in comparison to the previous year mainly because of lower revenue from the LSTK business. Growth in operating profit has been achieved through increased productivity and stringent cost management.

Dividend

The Board of Directors of the Company has recommended a final dividend of 50% on the paid up share capital of the Company as on 31st March, 2006, in addition to 30% interim dividend already paid during the year.

With this the total dividend for the year works out to 80% on the paid up share capital with a total sum of Rs.5123 lakhs (including tax on dividend amounting to Rs.630 lakhs). Payment of final dividend is subject to the approval of the shareholders in the Annual General Meeting.

Management Discussion & Analysis

A separate report on Management Discussion and Analysis is annexed to this Report.

Sector-wise details of Company's operation are given below :-

PETROLEUM REFINERIES

The Refining sector continued to play a significant role in our business. During the year, the following major refinery projects were completed :

- DHT, CDU/VDU, OHCU, Sulphur Block and associated Utilities & Offsites for Panipat Refinery Expansion Project of IOCL
- Capacity Expansion cum Modernisation Project, Phase-I at Kochi of KRL
- Reconstruction of FCC Unit at Gujarat Refinery, Vadodara of IOCL

EIL provided consultancy services under EPCM route for the Green Fuel Project of HPCL, Mumbai and the Clean Fuel Project of HPCL, Visakh, both of which are at advanced stages of construction. Also at an advance stage of construction is the MS Quality Upgradation Project of IOCL, Gujarat. During the year, EIL was entrusted with balance engineering and construction services by Essar Oil for their Refinery Project at Vadinar, Gujarat and the project is fast moving towards mechanical completion.

It is gratifying that Clients continue to repose confidence in EIL, and as a result thereof, major new assignments were awarded, viz. a grassroot refinery at Bina being set up by BOREL and the second expansion of Panipat Refinery from 12 to 15 MMTPA. Work on both these projects has already commenced. Another important new assignment is the DHT unit of BRPL. What is particularly satisfying in this case is that this will be the first commercial application of the new process technology developed jointly by R&D Divisions of IOCL and EIL.

A large number of Detailed Feasibility Reports and Scoping Studies were carried out during the year. Some of the significant ones were for refineries at Visakh, Mangalore, Bongaigaon and the Greenfield Bhatinda Refinery Project.

PETROCHEMICALS, CHEMICALS & FERTILIZERS

In Petrochemicals, the PTA Project of Panipat Refinery reached mechanical completion. Work on another prestigious project of Panipat Refinery i.e. Naphtha Cracker Project along with Downstream Units and Utilities & Offsites has completed important milestones. After completion of the preparation of FEED Packages for various units, tendering and evaluation of EPC bids for various packages is now nearing award stage from where the project can take off for physical implementation.

The expansion of UP Petrochemicals Complex of GAIL at Pata has been completed and successfully commissioned in November, 2005. EPCM services for execution of the new HDPE Unit are currently being provided and it is targeted to complete the project by year end. A Feasibility Report for setting up a gas based Petrochemical Complex at Kochi, Kerala has also been completed for GAIL.

PIPELINES

In the field of Pipelines, EIL continued to provide extensive services to its clients. The work on multi product trunk pipelines viz. Mundra-Delhi Pipeline of HPCL (1066 KMs), Mumbai-Manmad-Manglaja Pipeline extension to Delhi of BPCL (776 Kms), Numaligarh-Siliguri Pipeline of OIL (660 Kms) and Pune-Solapur Pipeline of HPCL (343 Kms) were in progress and these projects are now at advanced stages of construction. Besides these major pipeline jobs, work on expansion of pumping facilities of the existing Mumbai-Manmad pipeline of BPCL and a new Marketing Terminal at Siliguri of NRL have also achieved significant milestones. All the multi product pipelines, in hand, are expected to be completed during the next financial year.

During the year under review, EIL secured and has subsequently progressed on two new major jobs. The first one being the 935 Km 24" pipeline for transportation of Crude Oil from Vadinar to Bina Refinery. The second job involves 327 Km, 30" pipeline from Panvel to Dabhol and spurlines for transportation of regassified LNG.

OFFSHORE OIL & GAS

The Offshore Oil & Gas Projects Division continued to provide consultancy services to its esteemed clients.

Major assignments for ONGC are the MUT Pipeline Project, SH Reconstruction Project, Vasai East Development, 26 Well Platform Project and various other revamps/modernization projects. Major assignments for GSPC included services during the early phases of the development of the Deen Dayal Offshore Gas Field in the Krishna Godavari basin.

The Division is currently carrying out a System Adequacy Study for ZADCO, Abu Dhabi for enhance production of hydrocarbons in Upper Zakum Field.

ONSHORE OIL & GAS

Considering LNG an emerging area of the future, your Company had entered the field by taking up assignments for preparation of Feasibility Reports for LNG Terminals. EIL has now progressed to providing consultancy services for execution of LNG Storage and Regassification Terminals. The three jobs under execution are :-

- PMC Services for Expansion of Dahej Terminal of Petronet LNG Ltd.
- Preparation of FEED Package for Grassroot LNG Terminal at Kochi for Petronet LNG Ltd.
- Revival of Dabhol LNG Terminal for Gas Authority of India Ltd.

For initial assignments, services of back-up consultants have been used. After full development of in-house expertise in all areas, future projects, both domestic and overseas are intended to be handled by EIL on its own strength.

EIL provided services to ONGC for preparation of Process Package and Bid Package documentation for Revamp of Facilities at Assam GGS-I & GGS-II at Rudrasagar. Currently, Project Management services are being provided for these projects along with Compressor Plant at Geleki Assam and Mounded Storage Bullets at Duliajan for Oil India.

PORTS & TERMINALS

The Ports and Terminals Division is engaged in the revival of marine facilities of the Dabhol Power plant, Single Point Mooring Terminal for BORL and other smaller projects at different ports.

STRATEGIC STORAGES

On acceptance of the Detailed Project Report prepared by the Company earlier, EIL has now been
