DIVIDEND

In the absence of profits, your directors do not recommend any dividend.

OPERATIONS

The sales excluding excise duty during the year under review is Rs. 20,990.04 lacs compared to Rs. 22,107.43 lacs in the previous year resulting in a decrease of

5.05%. The main reason for reduction is lower sales value of Chips and by-product Methanol. The sales value of Chips has decreased because the Company decided to decrease the production in the interest of better profitability.

The operating profit before interest, depreciation, write off, provisions and taxes in the year under review is Rs. 3,672.92 lacs as compared to Rs. 2,537.09 lacs in the previous year. The improvement in profitability at the operating level during the year under review has been because of the following factors:

- (i) Reduction in raw material costs
- (ii) Increase in production and sales quantities of Engineering plastics by approximately 40%.

'Other Income' during the year 2000-01 was higher on account of insurance claim related to fire that occurred in April 2000.

During the year under review, the capacity utilisation in respect of Engineering Plastics was significantly higher (approximately 40%) than the previous year. The capacity utilisation in case of Polyester Film remained higher than the installed capacity. It was 106% of the installed capacity during the year under review.

Despite better operating level profit, the company has incurred net loss of Rs. 2,793.34 lacs (Previous Year Rs. 2,783.63 lacs) on account of -

- (i) Higher interest and financial cost
- (ii) Higher depreciation
- (iii) Provision for doubtful debts and advances
- (iv) Provision for obsolete inventory

The prices of Polyester Film in the domestic market are expected to remain volatile in the current year as well because of variation in the prices of inputs and on account of uncertainties emerging from wide spread drought in country and imposition of countervailing duties in USA.

Due to imposition of countervailing duty (anti subsidy and anti dumping) by United States on Indian manufacturers of Polyester Film

including your company, the volume of export to USA decreased substantially during the year under review. However, your company still managed to maintain the export volume in quantitative terms because of the timely decision taken by the management in focusing attention on export markets other than Europe and USA. Your directors are further pleased to report that despite imposition of countervailing duty by Europe/USA, the company has been able to keep itself ahead in successfully fulfilling the export obligation under EPCG scheme.

The Company continues to take various process and cost control measures which have yielded tangible results in improved output and quality, reduced rejection and better conversion efficiencies, all contributing to more economical operations helping the Company to survive despite highly competitive and recessionary market situation. Steps towards energy conservation are being continuously taken to reduce wastage and improve efficiency resulting in reduced energy costs. Your Company continues its focus on development of new products, better product mix, stringent quality control and cost reduction.

The company was registered as a Sick Industrial Undertaking under the provisions of Section 15(1) of SICA on 8th January 2001 and was declared a Sick Industrial Undertaking by the Hon'ble BIFR vide its order dated 22nd October 2001.
