ANNXURE TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENT

The year under review was good for overall glass industry due to increased growth in the user industries. However, the Company could not derive any benefit as it remained closed during the year.

OPPORTUNITY

With the increased importance of brand building exercise by the liquor industry (one of the biggest customer segment of the glass industry), the demand for unique shaped bottles for various brands will increase demand for glass bottles in liquor industry. The leading liquor manufacturers have started using most modern and fast moving filling lines and are opting for larger quantity of new bottles, which is positive opportunity for Bottle manufacturers like us. We are expecting the factory to restart the operations by the end of the March, 2010.

THREATS

The Growth in the industry may result in some players entering in this market. Any new additions in the capacity either by existing players or through new entrants will always remain a concern. Increase in input costs like soda ash, petro products etc. is a major concern for industry. Threats are also being continuously faced from unorganized market supplying second hand bottles having low cost as they do not pay taxes.

OUTLOOK

Though the long-term business outlook remains progressive, realization and margins may come under pressure in the future due to increased input cost mainly fuel prices.

Packaged food and breweries industry, one of the key consumers of Glass Bottles, are showing growth continuously and accordingly the glass industry can also expect to have a growth provided no significant capacities are added,

COSTS AND PROFITABILITY

The Company is committed to improve its profitability by de-bottlenecking and by producing qualitative products on re-built.

INTERNAL CONTROL SYSTEM & ADEQUACY

The Company's internal control system has been adequate to ensure that all its assets are safeguarded and protected against loss from unauthorized use and disposition.
