**ANNEXURE TO THE DIRECTORS' REPORT****MANAGEMENT DISCUSSION AND ANALYSIS****INDUSTRY STRUCTURE AND DEVELOPMENT**

India occupies significant position in the world packing industry. During 2011-12, the glass industry is expected to have touched a market of Rs. 4,000 crore. However, despite robust growth of the related industries, the per capita consumption of glass is very low as compared to other developed countries. The glass industry is growing 11% annually and is anticipated to touch a market value of UDS 21.59 billion by 2015. The demand will be driven by liquor, beer, food, beverage and pharmaceutical industries.

**OPPORTUNITY**

Alcohol and beverage industry is expected to sustain 14-15 % CAGR continuously due to change in lifestyles and increased cash flow to the new generation. Food processing, being the third area by the Government of India, shall also increase the usage of glass bottles. This will have a positive impact on the Glass Industry including your Company.

**THREATS**

The Growth in the industry may result in some players entering in this market or new additions to capacities by existing players. This may result into a competition affecting the bottom-lines of the industry. Increase in input costs like soda ash, petro products etc. is a major concern for industry. Threats are also being continuously faced from unorganized market supplying uncontrolled and unhygienic second hand bottles.

**OUTLOOK**

The future prospects for the Glass business continue to be subdued and the margins are expected to continue to be under pressure until the demand supply matches. There is a over capacity in the Industry due to expansion by large players and hence the present trend is expected to continue for a year or so during which the Company is likely to face difficult times.

**COSTS AND PROFITABILITY**

The Company is committed to improve its profitability by de-bottlenecking and by producing qualitative products.

**INTERNAL CONTROL SYSTEM & ADEQUACY**

The Company has effective systems of internal control in place. Control are in place as:

- (I) Effective systems of accounting and administrative controls at plant
- (ii) Existence of Audit Committee of Directors
