3. OPERATIONS

The Company produced ^{200,177}~~186,467~~ pieces of gears during the year ended 31st March, 1997 as against 144659 pieces produced during the previous year thus resulting in an increase of 38.37% ~~28.9%~~. Sales turnover and other income for the year amounted to Rs.852.75 lakhs as against Rs.581.38 lakhs for the previous year. Sales turnover during the year registered an increase of approximately 12.95% over the projections made in the prospectus at the time of the Public Issue. The significant increase in Sales Turnover can be attributed to the product-mix being loaded more in favour of tractor gears. Most of the production continues to be sold to Mahindra & Mahindra Ltd., with a small portion being supplied to Greaves Ltd. and Kerala Agro Machinery Corporation (KAMCO).

4. EXPANSION :

Civil work required for the expansion is nearing completion. A major portion of the imported machinery has arrived at the port. Part of the machinery has been shifted to the Plant site and commissioned, whereas the balance machinery is in the process of being shifted to the Plant.

The automotive division of Mahindra & Mahindra Ltd., has suggested that the Company supply Fully Assembled Gear transmissions which would initially be used for their L.C.V.'s manufactured at Zaheerabad. (Models Cab King SV and Cab King.) The capital investment required for the said project would be met solely through Debt, Lease financing and internal accruals. The product would however substantially improve the Company's future profit margins without any dilution of equity.

The Company is also in the process of finalising an Export order for Industrial Gears with the Sumitomo Group. U.S.A. and Japan.

5. CURRENT YEAR

The Company has commenced supply on a commercial basis to Mahindra and Mahindra Ltd., Automotive Division of 4 components of the 4 Speed Gear Box as well as one engine gear and transfer case gear in addition to 2 components of the 3 Speed Gear Box. Trial batches of further 5 components are awaiting approval from Mahindra and Mahindra Ltd. Further the company has developed for the Tractor Division 4 components of the Constant Mesh projects and 7 components of the Small Tractor project, in addition to the 4 gears for the main gear transmission. With the installation of additional machinery and consequent operational efficiencies, your Directors are of the opinion that barring unforeseen circumstances the prospects for the current year would be comparatively better than last year.

6. PROJECTIONS VS PERFORMANCE

The projections of profitability which have been stated in the prospectus issued by the company in connection with its Public Issue and the actual performance of the Company for the year 1996-97 are given below :

Description	(Rs. in lakhs)	
	Projections for the year 1996-97	Actual performance for the year 1996-97
Sales	755	852.75
Net Profit before taxation	139	82.86
E.P.S.	3.39	1.74

Although Sales for the year surpassed the projections made in the Prospectus, the decline in profitability was due to erosion in margins on account of increase in input costs, change in product mix, and interest on borrowings

7th Annual Report 1996-97

occasioned due to delay in sanction of increased working capital limits.

The company allotted on 1st February 1997, 1708500 (20%) Fully Convertible Debentures of Rs.10/- each to the promoters and Mahindra & Mahindra Ltd., being their subscription towards the equity for part financing the expansion programme. The said debentures alongwith net accumulated interest will be converted into Equity shares on 1st April, 1998.
