Financial Results

The financial year 2015-16 was a challenging year to FACT. The cascading effect of accumulated losses resulting in high interest and finance charges, non operation of Caprolactam Plant for the 3rd year in succession and the working capital crunch and production loss of fertilizers for three months have sevearely affected the financial performance of the company. However, your Directors are happy to inform you that your company could manage the financials in a reasonable way to continue the operations.

The financial results for the year 2015-16 shows a loss of ₹ 45219 lakh as against a loss of ₹ 39991 lakh during the year 2014-15.

The heavy loss for the year 2015-16 is mainly due to high interest and finance charges, lower production level due to working capital constraints and the unabsorbed fixed costs due to non operation of Caprolactam and intermittent operation of Ammonia Plant.

Due to accumulated loss, your directors are not recommending any dividend for the financial year 2015-16. The Company has not transferred any amount to Reserve during the financial year 2015-16.

Operations

The year 2015-16 was a year of mixed performance by the Company in the operation scenario. Company could achieve very good level of production and sales performance during the first half of the financial year 2015-16. During the second half of the year, the financial crunch faced by the Company affected procurement of essential raw materials causing significant impact on physical performance. However, with our efforts, Company could achieve production of 5.27 lakh MT of Factamfos and 0.79 lakh MT of Ammonium Sulphate. The Company could market 7.04 lakh MT of Fertilisers during the year 2015-16. The company could achieve all time high production and sale of Biofertilisers.

Your Directors have pleasure to inform you that during the financial year 2015-16 FEDO has achieved all time high turnover and both FEDO and FEW have earned profit .

Performance - 2016-17

The support and assistance from Government of India by way of plan loan of ₹ 1000 crore has enabled the company to plan high production targets in line with the revival projections for the financial year 2016-17. The company is having an ambitious target of producing one million tonnes of fertilisers during the current year. FACT is targeting to market one lakh tonnes of traded products in addition to its production of one million tonnes of fertilisers. The plan was to optimize production from the beginning of the year utilizing RLNG available from M/S PLL, Kochi. However due to certain technical issues of leakage in GAIL Gas pipeline, the gas supply was started only in May 2016. All the fertilizer production units could reach their capacity operation by 16th May, 2016. All these fertilizer units are planned to continue the current full load operation in the coming months of the financial year 2016-17. Availability of the supporting raw-materials and intermediates are being ensured for this. Stabilization of the prices of raw-material and RLNG are positive signals leading to the profitability of FACT. FACT is hopeful of making operational profit during the financial year 2016-17.

Management Discussion and Analysis Report

Management Discussion and Analysis Report covering the operational aspects for the year under review, as stipulated under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 is presented in a separate section forming part of Directors Report.
