# ANNUAL REPORT 1996-97

## ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT PURSUANT TO THE PROVISIONS OF SECTION 173 (2) OF THE COMPANIES ACT, 1956 IN RESPECT TO THE SPECIAL BUSINESS :

### ITEM NO. 4 :

As the Members are aware that the Company's Equity Shares of Rs. 10/- each, have been listed in Madhya Pradesh, Delhi & Bombay Stock Exchanges in India. The Company had come into the Capital Market through its Public Issue of 25,50,000 Equity Shares of Rs. 10/- each at par and the Share were got listed in all the Stock Exchanges in terms of the prospectus of the Company.

The Board have considered that the Company's Equity Shares are traded only at the Mumbai Exchange and there is no trading of its equity shares in MP and Delhi Stock exchange since 1993. Therefore there is no use to continue listing with Delhi & MP Stock Exchange.

Since the MP Stock Exchange is Regional Stock Exchange for the Company therefore its statutory requirement to continue listing of share in MP. In view of above the Board consider that the Company should approach to delist its Shares from Delhi Stock Exchange, which will also reduce paper working and save Annual Listing Fee.

The Board proposed the resolution as set out in Item No. 4 of the Notice for approval as a Special Resolution.

All material documents, copy of the Listing Agreements are open for inspection to the Members till the conclusion of the Meeting at the Registered Office of the Company.

None of the Directors of your Company are concerned or interested in the Resolution except in the capacity of the Members.

Paid up Capital	447.85	447.85
Reserve excluding Revaluation Reserves	14.12	76.88

**DIVIDEND :**

Since the Company could not earn profit during the year under review, therefore it is not possible for Directors to recommend any dividend for this year.

**REVIEW OF THE WORKING & FUTURE PROSPECTS :**

The year 1996-97 under review was a very difficult year for Indian Industries. Indian Industries were under state of great confusion with loss of confidence of future prospects. Severe demand recession, liquidity crunch, high cost of borrowing, increased input cost and infrastructural bottle-necks along with political uncertainty and lack of clear direction of the economic policies resulted into postponement or cancellation of envisaged projects. This was more pronounced in the core sector responsible for infrastructural development for building up a platform for future industrialisation and economic growth. Confidence of Indian Industries was greatly shaken up about future prospects, in view of political uncertainty and Union Government incentive for import of foreign products in the name of globalisation of Indian Economy but without providing equal infrastructure and environment facility to the Indian industry.

As per the Statistics released by the Central Statistical Organisation industrial growth had declined from 11.6% to 6.7% in the year 1996-97. The slow down was also evident in all the segments of the industry more particularly in manufacturing sector which grew only by 8% in 96-97 as against 13% in previous year. Growth in mining sector had declined to 1.2% in the year 1996-97 from 7.4% and in power sector it had declined to 3.8% from 8% in the previous year. It seems that the current financial year will also be a difficult year for the Indian Industry, with negative growth in first quarter.

Your Company manufacture fluid couplings which find its use mainly in core - sector industries like Power generation, Port trust, Mining, Cement, Steel, Metal, Fertilizer and Chemical industries. All these sector of Industries have registered a negative growth and experienced great operational difficulties resulting in down sizing Planned investment and even deferring of essential spares for routine operation of Plant and Machinery. There were few orders in the market which every manufacturer wanted to grab and this resulted in crash of selling prices and compulsion to book the orders even at loss so that industries keep running.

With above background, lower order booking, heavy discounting on sales prices, rising cost of all inputs including that of power, salaries and wages, raw material inputs and extremely poor power supply by M.P.

## ANNUAL REPORT 1996-97

Electricity Board, your Company also suffered badly. Profit before depreciation and interest was lowered to Rs. 24.55 Lacs as against previous year profit of Rs. 96.92 Lacs.

High cost of interest and depreciation during the year under review affected profitability adversely. Your Company had also to pay additionally Rs. 11.09 Lacs against Income Tax demand after appeal effect for the year 93-94 which includes interest of more than Rs. 6.00 Lacs.

Further, to establish itself, your Company booked many orders under heavy competition at low prices for its variable speed scoop type coupling which have a large input of bought-out item and large manufacturing cycle. Once these couplings are more and more installed in various industries, they shall bring in more opportunity of sales and at the same time for supply of spare parts and replacement of coupling.

Your Company continues its efforts to establish exports and have participated in the Hannover Fair 1997. This participation was by selection of your Company by CBI (An Organisation of Netherlands Government dedicated to assist exporters from the developing Countries). This participation in the International Trade Fair provided awareness of your Company and its products in the Global market. Number of enquiries and information requests were generated during the participation which are being followed up regularly. However, for hi-tech products and engineering products, it takes a very long time to establish the products and credibility in the Global market. As a result of previous participation your Company has started exporting to Korea regularly though small in quantity. Also a selling Agent has been appointed in Australia during the year under review.

The Union Government is aware of deteriorating Industrial and Economic scenario in the country. The Financial Institutions and Banking sector have also accepted that there has been slow pace/postponement in implementation of various projects particularly in infrastructure sector in the year 1996-97. Keeping in view the present status of capital market, the Prime Minister has announced speedy clearance of power projects and other projects in infrastructure sector. Number of positive steps and measures taken by the Finance Minister together with the credit policy announced by the RBI Governor will provide necessary fillip to the economy. This will create confidence in the Indian Industry and improve upon liquidity crunch and re-instate investors confidence in the capital market.

The result of such steps are expected to show improvements around November/December'97. With the growth of these sectors your Company expects to do a better business in the financial year 1997-98.

Your Directors are confident of improving the working during the current financial year with dedicated efforts of the Management to increase order booking, reduction in cost and establishing Company's better credibility in export market.
