The last financial year has been an eventful year for the economy with the roll-out of GST, the residual impact of demonetisation, the introduction of Indian Bankruptcy Code (IBC), and the NPA problem in the banking sector. However, towards the end of the year, green shoots in the economy were visible and the economy seemed poised for stable growth. The Indian economy expanded by 7.7 percent in the last quarter of FY18, the fastest in the last eight quarters, although rising crude prices and macro headwinds, both global and domestic, could prolong the journey to stable growth. Against this macro-economic backdrop, I am pleased to inform you that our businesses have delivered a healthy performance in FY18 and thereby, building a foundation for future growth.

**Economy and business outlook** A broad-based cyclical upturn was visible across the global economy during the year under review and this got reflected in recovery in investment, manufacturing, trade and the firming of commodity prices. However, protectionist moves by the US government and partial retaliation by China have raised concerns about the future of global trade. But more importantly, the growing uncertainty in global geopolitics and the recent surge in crude oil prices are two factors that will have a bearing on the pace of global economic recovery. Several of the developed economies have either stopped or are in the process of slowing down their monetary expansion programmes undertaken in the aftermath of the global financial crisis a decade ago. But despite that, the emerging markets have not witnessed any major outflow of foreign capital as there has been a steady flow of liquidity from Japan and China to these markets. The domestic economy grew 6.7 per cent in 2017-18. Although this is lower than the growth achieved during the previous fiscal, the point to be noted here is that considerable progress has been made on a number of fronts during the year under review the impact of which will start manifesting in the coming months and years. The government's efforts towards enhancing India's attractiveness as an investment destination have started bearing fruits. India

has made substantial progress in improving its ranking on various parameters like Ease of Doing Business Index, Competitiveness, Innovation and Logistics Performance. Meanwhile, resolving the 'twin balance sheet problem' through the Insolvency and Bankruptcy Code (IBC) route has got under way. However, the IBC is still evolving, and the process will get fine-tuned gradually over the next few years. At least, the IBC has been ensuring quicker resolution of stressed assets. The biggest achievement during the year under review was the roll-out of the Goods and Services Tax (GST). Despite some initial documentation-related problems faced by smaller enterprises, GST is a giant step forward in creating a stable and transparent taxation regime and will reap rich dividends for the economy.

The Company's focus extends beyond the profit of a year. It extends to sustainable growth across market cycles. This sustainability is determined by our capacity to enhance stakeholder trust and value. If they gain, we gain; if they grow, we grow.

To sum up, FY18 has been a challenging year for us. I am proud of our employees who, despite the challenges faced, have worked hard to create consistent value for the company. I take this opportunity to thank each one of them for their sincere efforts. I also thank you - our valued Shareholders, for placing your confidence in us. I look forward to your continued support..

Regards,  
Sd/-
