## PERFORMANCE & PROSPECTS

Your company has posted a lower turnover of Rs. 24 Lacs which is 13% lower than the previous year. Your Company could not do well due to working capital shortage. There is increase in the loss of the company comparing to the previous year. During the period under review your company has recorded a loss of Rs. 19.43 Lacs. The accumulated losses of the Company increased to Rs.600.62 Lacs. Your Company is in a position of extreme working capital shortage for which the operation of the Company was very low. Cut throat competition, sluggish demand and a growth trend in the economy have shown a mixed workings of the Company.

The situation for the current year is not encouraging till now. The company has eroded more than 50% of its networth during the period under review. Your company was debt free within the financial year 2004-2005 by paying all dues to the IDBI and SBI in One Time Settlement and Compromise Settlement respectively but your Company was not withdrawn from BIRF/AAIFR since then though application for withdrawing the name was made to AAIFR/BIFR. Your Board of Directors taking into accounting the pending application with BIFA/AAIFR and are approaching for proper course. The company results in the coming years will be laudable.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Company's performance during the year ended 31st March, 2009 and the Management's views on future outlook are discussed below:

This report contains forward looking statements that address expectations or projections about the future including but not limited to statements about the Company's strategy for growth, expenditures and financial results which are based on assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized.

The Company's actual results, performance or achievements could thus differ materially from those projected in any such forward looking statements.

During the year under review the Indian economy witnessed a slowdown due to the global economy turmoil.

The Government of India through its earlier policies and regulations have discouraged setting up of indigenous Coke industries due to the reduction in the landed price of imported low ash coal and custom duty thereon which made Low Ash Metallurgical Coke (LAMC) from imported coal competitive to LAMC manufacturers by high ash coal available indigenously. Since the Coal India Limited is the sole supplier of indigenous Coal, the main raw material, any changes in Government policies affecting coal prices may have an impact in the workings of the Company. Due to cut throat competition and working capital shortage your Company could not do well during the year under review.

A number of large public sector unit in India are also importing coal as the quality of imported coal is better than indigenous. The quality of imported coal is better due to the reason that the coals produced by them are of good quality and not regulated by their Government. The demand for indigenous coal declined because of low grade coal supplied by the Government Undertaking - BCCL, who is the sole supplier of indigenous Coal and have the monopoly in regulating the price and allotment of coal.

Your Company is not free while competing with the indigenous industries as well as with imported coal. Although the coke market is doing well but your Company's working are below expectation due to working capital shortage & carry forward losses of the previous

**FOUNDRY FUEL PRODUCTS LIMITED****ANNUAL REPORT 2008-2009**

years. In between these limiting factors your Company make losses.

Your Company's integrated plants are well in operation to manufacture LAMC with a Coal Washery. There is a large demand & supply gap for LAMC being consumed in steel, foundries & chemical industries. Your Company has further taken adequate steps in achieving high levels of production with quality improvements. Thus we see an opportunity for better than Industry realization by focusing on top quality production. Increasing imports of coal and better quality production are major threats that the Company will face. Your Company perceives that stiff competition and unclear Government policies as the major risk that confronts your Company and the coke Industry. Your Company also during the year perceives a tight cash flow and its subsequent impact on meeting of commitments to long term debts of State Bank of India as a major concern although the Company has settled the dues of the IDBI.

Your Company has adequate internal control systems, commensurate with its size of operations and nature of its business and works in a highly automated environment. The statutory auditors have certified in their audit report that the internal control procedure are adequate and commensurate with the size of the Company and nature of its business.

Your Company has again incurred loss of Rs.19.43 Lacs and accordingly the accumulated losses increased to 600.62 Lacs. Your promoters arranged funds for working capital. It appears that the tight financial conditions will continue during the year also.

Your Company's constant endeavour has been to attract human potential by developing human values. Your Company has during the previous year continued to have good industrial relations with its workers and employees at all levels.

Statements in the Management Discussion and Analysis describing the Company's objectives, strengths, estimates, projections, expectations may be forward looking statements within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. The economic conditions in which the Company operates, changes in Government regulations, other statutes and other incidental factors including the order to be passed by the AAIFR could make a difference to the Company's workings is regarded as important factors.
