OPERATIONS:

FRESH FRUITS SEGMENT:

The year under report shows largely the result of the worst ever season for exports of fresh Indian grapes to Europe.

Detection of a harmless but still banned chemical CCC resulted in the German Supermarkets deciding not to sell Indian grapes in their market for both the 2010 and 2011 seasons. Despite this your company was able to avoid loss in the full financial year of 2010-11.

The total income during the year increased from ₹518.10 million to ₹563.03 million, while the profit after tax was just ₹0.47 million the worst in the last 5 years.

While the industry saw mostly serious and committed exporters in the fray this year, the overall exports to EU reduced drastically from about 3700 containers in 2010 to only around 1900 containers in 2011 season. With the scare of previous year still in their minds, German retailers did not buy Indian grapes this year. Your company however, witnessed a moderate drop of less than 15% in quantities exported to Europe, thereby consolidating its position from 7.5% to over 12.5% share of the Indian exports to EU.

During the 2011 season your company worked towards finding new markets, the results are encouraging and we would work hard in developing these markets in the coming years.

This year the Company used its infrastructure for collection, grading and sorting of fresh fruits and vegetables subsidised by Ministry of Food processing for distribution of fresh grapes in the domestic market. Here too the results are very encouraging and we feel there is a great untapped potential in this market.

Imports of fresh produce to create round the year availability of certain fruits in the domestic market was also undertaken but there is too much unorganized rush in this market similar to what was seen in exports in the earlier years and we feel it will take some time for this business to mature. We will keep working in developing this segment but will not like to be aggressive.

FOOD PROCESSING SEGMENT:

The Revenue generated from this segment, during the year under report, increased from ₹ 49.08 million to ₹ 104.02 million and the operating loss reduced from ₹ 23.65 million to ₹ 11.23 million. The Company processed 5,846 M Tons of fruit in this year as compared to 2,516 M Tons in the previous year.

The Infrastructure created for food processing was offered to other processed food traders and manufacturers for processing fresh fruits supplied by them. With a good availability of fresh fruits and vegetables in and around Nasik we expect many more fruit processors to use our state-of-the art facilities in the coming years.

The demand for good quality, hygienically processed food is ever increasing. Nasik is the largest vegetable producing area in the western part of India and is just 200 kms away from Mumbai. It is centrally located for distribution to other parts of Maharashtra, Gujarat and Madhya Pradesh. We will continue to identify and diversify the food products being processed and manufactured at this plant.

DIVIDEND:

In view of the commitment of the Company towards running of the Food Processing Plant established at Nasik, the Board of Directors are of the view to conserve the resources and do not recommend dividend for this year.

DIRECTORS:

Mr. MAYUR J SHAH, who retires by rotation as Director of the Company but being eligible offers himself for re-appointment.

Your directors also propose to re-appointment of **Mr. Ashok V Motiani** as Managing Director for further period 5 year with effect from 1st August, 2011.
