### | Chairman's | Statement

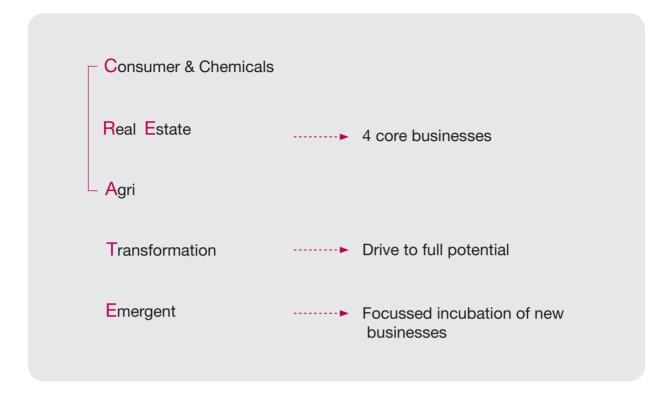

### Chairman's Statement

Dear Shareholders,

I am very pleased to share with you the events, developments and the progress that your Company has made during the financial year ended March 2013. The overall performance of your Company has been good despite several challenges on the economic front, both globally and in India. The year gone by is representative of the value Godrej Industries continues to create for all stakeholders as a result of its diversified presence across key segments of economic activity in the country.

As a conglomerate with diverse business interests, growth at the consolidated level is pursued through competitively growing our core businesses, building an environment to achieve transformation while also nurturing and investing in emergent businesses of the future. The essence of our business strategy is captured in our approach called CREATE which stands for:

I would like to summarize the year for each dimension of our CREATE strategy:

#### C – Consumer and Chemicals Consumer (GCPL)

FY2013 proved to be another year of good performance in both the domestic and international operations of Godrej Consumer Products. We continue to be the market leaders in household insecticides and hair colour in India and have the number two position in soaps. The integration of our overseas acquisitions has gone well and overall our international businesses have had a year of good results.

A major focus area for us this year was to accelerate our innovations and to back our new products with strong marketing investments. We have had a number of successful launches in both the domestic and international business and believe that these launches will further enhance our competitiveness, improve the equity of our brands and drive both penetration and consumption.

In order to continue to deliver healthy performance and create value year after year, we will be focused on six strategic pillars of growth, viz, leading in our core categories, growing our international businesses in line with our 3 by 3 strategy, driving innovation and renovation, creating a future ready sales system, building a best in class supply chain, and fostering an agile, professional and high performance culture. We are confident that GCPL's pace of growth will continue on its strong path as we derive benefits from the strategic foundation we have put in place.
