

HAPPY FACES. HAPPIER FAMILIES.

A company is made up of its hard-working employees, its loyal stakeholders and most importantly, its happy customers. The image above appropriately showcases this harmony between the three pillars of GRUH.

Over the years, we have acquired the insight that enables us to gauge a genuine borrower from his expressive face while the stakeholders' faces rely on us to make proper judgements. This invigorating expectation and the bright smile on our customers' faces encourage us to perform efficiently year after year and deliver consistently better results and robust outcomes.

QUARTER-TO-QUARTER MOVEMENT OF KEY FINANCIAL PARAMETERS

"I try to be like a forest: revitalizing and constantly growing."

- Forest Whitaker, well-known actor, producer and director

And so do we. Our focus has always been the same but constantly growing. We continue penetrating deeper into remote geographic locations and targeting Low Income Group segments at urban and semi-urban locations. From being a nascent institution for mortgage housing finance to becoming a preferred brand when it comes to rural housing finance and garnering of public savings, we have really come a long way.

Our sound financials are borne out not only by the recently awarded "AAA" rating by CRISIL but also the "AAA" rating by ICRA for our Fixed Deposit Program. There is an ever-increasing number of HFCs (both small as well as branches of big corporate houses) that have entered this market. It is significant that most of these have derived inspiration from GRUH's business model.

"A challenge only becomes an obstacle when you bow to it."

- Ray Davis, motivational writer, thinker and speaker

In these 26 years, GRUH has withstood some really harsh times and conditions. Some of the initial problems were in estimating the level of income of borrowers (in the informal sector), geographical restrictions and cultural differences. In contrast to these, the current challenges which the housing mortgage finance sector is facing are rapid increase in property prices, increasing inflation and high interest rates.

But challenges seem overpowering only when you get deterred by them. But we, at GRUH, enjoy challenging the challenges. We convert every piece of rock into a nugget of gold; we solve every jigsaw puzzle through our innovative problem-solving passion and commitment. In fact, it is these trying times that inspire us to revisit our original mandate and shape our strong will power to achieve success and drive our quest to do better.
