## Message from Chairman & Managing Director

Dear Shareowners,

Fiscal 2010-11 reflected recovery and revival across most of the economies after witnessing the pain and panic of the 2008 financial crisis. While the US, the UK and Western Europe experienced modest recoveries, China, India and other Asian countries, as also certain countries in Latin America, continued to register high levels of growth and continued to be centres of significant economic activity. Inflation has, however, now emerged as the new global economic challenge, driven by a substantial rise in the prices of almost all commodities, mineral resources and energy, impacting almost all industrial sectors. Unemployment, Debt and Deficit continued to remain as challenges. Global Steel Production grew by 15% at 1414 MnT, while China's steel production was up by 9.3% to 627 MnT. The global steel industry continued to face an unprecedented increase in the price of iron ore and coking coal, accentuated by short-term supply disruptions. These have created pressures on the viability of the steel industry and consequently the competitiveness of the user industries. China continued to be the largest national steel producer and largest domestic consumer of steel. The steel demand in Western Europe and the UK has remained more or less stagnant, with intense competition from steel producers in Eastern Europe utilizing lower cost inputs. Asian countries, including India, on the other hand, continued to enjoy robust demand from several sectors resulting in increased volumes and a richer product mix.

### Projects and Expansion Initiatives

The Company has decided to set-up a new Pellet plant with beneficiation unit at Village - Halavarthi, Taluka and District - Koppal, Karnataka. Company has acquired a land of 106 acres (approx.) for the expansion plan as above and has also obtained clearances for the new project from the Karnataka Government and Ministry of Environment and Forests. However, the size and shape of the project is yet to be decided.

### Your Company's Performance

The fiscal year 2010-11 would be marked as an important year

for the Company. During the year Company has reported a turnover of Rs. 55,658.56 Lacs. Company has posted a Profit Before Tax (PBT) Rs. 3,025.94 Lacs and Profit After Tax (PAT) Rs. 2,292.25 Lacs. The Company is taking several measures to ensure the cost reduction, such as, increased coal injection in blast furnace, higher captive power generation, etc. along with lower input costs led to reduction in cost of production.

### Future Outlook

As reported by the 'World Economic Outlook' (WEO) issued by the International Monetary Fund in April 2011, the world economy is expected to grow at 4.5% in the years 2011 as well as 2012. The advanced economies are projected to grow at 2.5% while the emerging and developing economies will be growing at a higher level of 6.5%. China and India, as a part of the developing Asia are set to grow at 9.6% and 8.2% respectively during 2011 and 9.5% and 7.8% in 2012 with private demand growing in China while infrastructure remains a key contributor to growth in India.

During the year under review, the Indian economy has performed well with very attractive growth rates reflecting strong consumer demand for almost all goods and services. The years ahead could, however, be challenging as the government endeavors to curb inflationary growth. The most significant impact will however be from the slowdown in major infrastructure projects in the areas of road construction, mass transit systems, power generation and investments in primary industries, where financial closure, right-of-way permissions and land acquisition could present major delays. Gallantt Metal will continue to be committed to be amongst the most cost efficient steel companies in the western region of the country, while meeting its social responsibility to its stakeholders and the communities which it serves.

Thanking you,

Yours truly,

**C. P. Agarwal**
