PERFORMANCE

As is the normal practice, the performance of the Company during the year under review is dealt with exhaustively in the Management Discussion and Analysis, which forms part of the Annual Report, that is being circulated.

DIVIDEND

Your Directors have recommended a dividend at the rate of 10 % (Rupees 0.50 paise per share). This dividend, if approved by the Members of the Company at the ensuing 18th Annual General

Meeting, will be paid to those shareholders whose names appear in the Register of Members of the Company on the date of the Annual General Meeting, in so far as those members who hold the shares physically. In respect of those who have dematerialised the shares, the dividend is payable to those beneficial owners as has been advised to the Company by NSDL and CDSL on the date on which the Book closure commenced.

CAPITAL

You will find that the Paid-up Capital of the Company which was Rs.9,60,00,000/- as on 31.3.2006 has gone

upto Rs.16,30,73,170/-. This is, as a result of the follow-on Public Issue which was made by the Company during May 2006. The Members may be aware that the Company has issued share warrants of the value of Rs.8.00 crores on which a sum of Rs.80 Lakhs has been received by the Company. The warrant-holders are obligated to make the payment of the balance amount of Rs.7.20 crores on or before 01.09.2007. On such payment, they are entitled to the entire warrant amount of Rs.8.00 crores being converted into 16,00,000 Equity Shares of Rs.5/- each at a premium of Rs.45/- each. If, however, the warrant-holders fail to make the payment, then they will forfeit the amount of Rs.80 Lakhs paid by them already and the capital of the Company will remain at the same level at which it is now.

POWER GENERATION

In the annexure to this Directors' Report in Form-A, the various sources of power generation has been detailed. It may be noticed that the power generated through the wind energy generators is 1,62,72,621 units at a cost of Rs.2.86 per unit. It may also be noted that the power drawn from the Electricity Board has cost the Company at the rate of Rs.4.16 per unit. Thus, there is a clear saving of Rs.1.30 per unit on the entire electricity generated through wind energy generators. In absolute terms for the year, the wind energy generators, apart from meeting the cost of interest and depreciation has contributed Rs.2.50 crores. Though the initial cost in acquiring wind mills has been substantial, in the long run, it is expected that the wind energy generators will enable the Management to control the power cost in a very effective manner.

MODERNISATION

The Company had made a project and the details of the project were given in the prospectus which was issued in respect of the follow-on Public Issue. The circumstances in the textile industry changed dramatically over the past six months and now the entire industry is strained by various problems, as a result, it became necessary to revise the Scheme which was originally planned taking into consideration the then existing circumstances. SBI Capital Markets Ltd. who had done the original appraisal were requested with the concurrence of the participating Bankers to have a re-appraisal of the project and to modify the same wherever necessary. Accordingly, SBI Capital Markets Ltd made a re-appraisal of the project keeping in view the current situation in the industry and this re-appraisal report was placed before the consortium of lenders. With the concurrence of all parties involved, it has been

decided that modification to the Scheme has to be carried out by the Company by adding impetus to the garment division and giving lesser importance to the spinning industry and the wind energy generators. The reason for wind energy generators being given lesser importance notwithstanding the saving involved are in two-fold. The first reason is that the initial capital outlay in wind energy generators is quite high and in the situation in which the industry is placed at this juncture, it is not advisable to incur that size of capital expenditure. The second reason is that when the Company installed initially the wind energy generators, they came under TUF (Technology Upgradation Fund) Scheme. Since then, the Government has revised the policy and has made wind energy generator ineligible for the concessions available under the TUF Scheme. Accordingly, the funds raised by issue of shares have been spent only on those areas of the Scheme which has been cleared in the re-appraisal and that too, with the concurrence of the lending consortium of Banks.

DEPOSITS

Public deposits accepted by your Company are well within the prescribed limits of the provisions of Section 58A of the Companies Act, 1956 and all the rules and procedures connected with the acceptance of deposits have been complied with fully. There are no unclaimed or overdue deposits in the Company.

LISTING AND DELISTING

Consequent upon the shares of the Company getting listed with the National Stock Exchanges during the financial year 2005-06, there were two platforms available for the investors to deal with the shares of the Company, one being the National Stock Exchange of India Ltd and the other being the Bombay Stock Exchange Ltd. Both these Stock Exchanges have got reach across the length and breadth of the country and in all important towns, including Taluk Headquarters, these terminals are functioning. As a result, dealing in shares of the Company has become simpler and easy through these two Stock Exchanges.

In view of the shares being listed in these Stock Exchanges and the advantages derived therefrom, the necessity to continue the listing with the regional stock exchanges, such as, Madras Stock Exchange Ltd, Coimbatore Stock Exchange Ltd and The Calcutta Stock Exchange Association Ltd does not exist any more. In view of this, it was also decided to de-list the shares of the Company from these three Stock Exchanges. After the Board taking necessary decision in this regard, a Special Resolution was placed before the Members of the

company at the 17th Annual General Meeting held on 30-9-2006 and the same was approved. The other procedural formalities connected with the delisting as laid down by SEBI are under implementation and once these procedures are completed and necessary papers forwarded to these three Stock Exchanges, the shares will get delisted in these three stock exchanges and the Company will be informed accordingly by these three Stock Exchanges.

The company has paid the listing fee to the National Stock Exchange of India Ltd and the Bombay Stock Exchange Ltd for the financial year 2007-2008 already.
