OPERATIONAL REVIEW

The Company has sold 10 plots and achieved turnover of Rs. 49.96 lacs as compared to previous year of Rs. 70.75 lacs. The reduction in sales was due to wait and watch policy adopted by the new entrepreneurs in the transposition period where the overall economic growth is expected and interest rates are falling. This has resulted in shifting in booking of plots in the current year. The profit before tax has been higher though marginal due to high depreciation and provision for deferred taxation. The profit after tax is Rs. 0.50 lacs as compared to previous year of Rs. 0.45 lacs.

The Company has also designed its payment mechanism in the most suited manner based upon the customer's repayment capabilities and requirement. This ensures the Company to increase its sale and also the collection at good price of its land, as it eliminates the discounting and bargaining procedures. Thus, We at Garnet fulfill our customer's requirement at ONE STOP by rendering all the services besides industrial land/plot for smooth implementation.

The Company has been successful in raising project finance worth Rs. 50 crores for its esteemed customers.

The Company has identified the following as growth and focus areas :

1. Sale of Industrial Plots
2. Sale of Readymade Industrial Galas
3. Making foray in the Residential Construction Segment

The construction industry in general has been stagnant for the past 2 years and now had shown some rising trend of growth. With the overall economic growth coupled with regime of falling in interest rate, has induced many entrepreneurs especially small and middle sized to convert their ideas into reality. The construction industry at present is not anticipating any down fall in the market rate. The impact of all these will be reflected in the financial results of the Company in the current and next years.
