PERFORMANCE DURING THE YEAR UNDER REVIEW

The slowdown in the economy of the country continued even in the year 2000-2001 and therefore your company was not able to maintain its operations in Sorbitol division even at the previous year level. During the year the company was able to produce 5192.81 mts of Sorbitol (about 61% of installed capacity) and sold the entire quantity. Nevertheless there was no fall in the price realization compared to 1999-00 and therefore the company could sell 5213 mt at Rs.1099.91 lakhs as against 6580 mt at Rs.1360.02 lakhs during the previous year. This has affected the turnover of the company and pushed the losses further up. Your directors are hopeful that at least in the coming year the operations of the company will be improved.

As regards starch division the company crushed about 23656 mt of Maize as against 25000 mt during the previous year. In this division also the company could not achieve even the last year performance mainly due to paucity of working capital. The company could achieve about 50% of its installed capacity with a turnover of Rs.1200 lakhs. However the company could procure the Maize relatively at cheaper rate but the same has been set off due to fall in realizations.

The turnover of the company fell compared to the previous year mainly due to fall in the production and sale of Sorbitol to the tune of 1367 mt, valuing Rs.260.11 lakhs even though the realisations remain the same. Same is the case with regard to Starch division. There was fall in the crushing of maize to the tune of 1500 mt and there was also steep fall in the starch price realizations. Both these factors have affected the starch division turnover to the tune of Rs.200 lakhs. Considering the company as a whole there has been fall in the turnover to the tune of Rs.440 lakhs compared to the previous year.

EXPORTS

The Company could hardly do any export of its products since the prices in international markets continue to be un-remunerative.

OUTLOOK FOR THE CURRENT YEAR

Your company's products continue to be well accepted in the market and all the major clients are also patronizing your company. Further the starch and its by-products produced by your company are well accepted in the market and in some pockets they are even commanding premium. Your company is making

10th Annual Report 2000-2001

all efforts for achieving minimum of 75% of installed capacity of both Sorbitol and Starch division in the year 2001-02.

The price of Maize was reasonably at low rate till June 2001. However due to delay in monsoon the prices went up very high and there is also an apprehension that the price of maize may go up even during the season, which starts from September month. However all out efforts will be made to ensure that the company will be able to procure the Maize at reasonably low rate.

The company commissioned the coal cum husk fired boiler in the month of November 2000 and could see substantial saving in the fuel cost. Your directors are hopeful that due to commissioning of the new boiler there could be saving nearly of Rs.200 lakhs per annum in consumption of fuel, which will eventually reduce the losses.

LISTING OF SECURITIES

- a) The Company's Shares are listed with The Hyderabad Stock Exchange Limited, 3-6-275, Himayathnagar, Hyderabad - 500 029 and The Stock Exchange, Mumbai, Phiroze Jeejeebhoy Towers, Dalal Street, Mumbai - 400 023.
- b) The Annual Listing Fee for the year 2000-2001 has been paid to the Stock Exchanges at Hyderabad and Mumbai.

ISO 9002

Yours is the only Company having been awarded ISO 9002 Certificate for Sorbitol division. Effective steps are being taken to get ISO 9002 certificate even for Starch Division.

REFERENCE TO BIFR

As the net worth of the company was completely eroded as on 31st March 2000 a reference to BIFR as per the provisions of Sick Industrial Companies (Special Provisions) Act 1985 was made.
