MANAGEMENT DISCUSSION AND ANALYSIS

1. Textile industry – Global & Indian perspective:

The Government policies pertaining to Textile Industry in the Country have undergone radical changes some of which are worth mentioning:-

1. The Government has exempted the Cotton Spinning/Weaving Garmenting/Knitting Sector from levy of Excise Duty. This has created a level playing field at all stages.
2. The Government has reduced Custom Duty on several High-Tech. Machinery used in Textile Industry, which will help in the modernization process in the Industry.
3. The Government has also come out with Capital Subsidy Scheme of 10% on some items of Plant & Machinery used for fabric processing both in Knitting and Weaving Sector. This will help this laggard segment of the Industry to become more modern and organized.
4. The Knitting Industry reserved for small scale sector has now been dereserved.

All these changes have produced conducive environment for investment in the Textile Industry. Of course, the opportunities for investment after the phasing out of quota regime are also accompanied by increasing challenge in the International Market. The Industry has to gear up while the Government has to maintain a sustained policy to address the emerging issues in facing competition, particularly from China and Pakistan.

Certain factors of cost like Power and infrastructure need to be examined in wider context of competitiveness of Industry than to be looked at from narrow perspective of cross subsidies for certain segments. Similarly, Labour Reforms need to be carried out at faster pace, if we have to take advantage of the opportunities in the global textile market.

It is worth mentioning that the Company has taken several decisions to implement Growth Plans in the next three years with an investment of Rs. 1,000 crores.

2. PRODUCTION & SALES REVIEW.

During the year under review, your company has registered a turnover of Rs.456.71 lac as compared to Rs 1355.49 lac in the previous year. Due to the floods on 2nd and 3rd August at Silvassa factory (Yarn Division) the Company has affected in production and turnover as compared to the last year. The business-wise performance is as under.

PROCESSING OF FABRIC:

The production in the Company's Process House at Tarapur (Maharashtra) i.e. Dyeing & printing of textile fabrics was 13318576. Mtrs. as against 11884411 Mtrs. in previous year. The sales revenue from Processed Fabric increased from Rs. 7,07,86,599 lac to Rs. 8,77,36,230 lac during the year under review. The Company has installed all type of value added processing machines to cater all type of market needs.

YARN PROCESSING:

Total Production during the year in texturising yarn was 580383.620 Kgs. and in twisted yarn 86095.930 Kgs. against last year production of 1796842.820 & 65870.180 Kgs. The sales revenue of yarn decreased from 4,56,71,576 to 17,41,47,222 during the year under review.

Outlook:

Industrial scenario in the Textile Sector remained unchanged during the year under review with stagnant domestic market and fierce competition in the international market. The Division is, however, confident of sustained growth through a series of initiatives in the areas of product development, technological up gradation and strengthening of distribution network.

5. Internal Control Systems and Their Adequacy:

Since inception of the Company, the management is very much concerned about the adequacy of Internal Control System. It is aware that for a multi-faceted growth of any organization, only the strict overall control & efficient supervision can check all the operations, whether minor or major, and such control are backbone of any commercial establishment or manufacturing units.

The management of your Company has left no stone unturned in this direction. It has an its Internal Audit team with well-experienced and hard working personnel as also recently constituted an Audit Committee of the Board, which frequently check and review authenticity of the figures in coordination with the Internal Audit.

This system is therefore found quite adequate with the result that to-day your Company has cemented its footing in the market and has come out successfully in keen competition, be it from organized or unorganized sectors.

6. The Financial and Operational Performance:

As reflected in our last year's Report, the financial statement given in the Report of the Directors for the financial year 2004 –2005 is quite satisfactory. It reflects

the genuine steps taken by the management for transparency and best judgment for the estimate made to correctly reflect the true & fair affairs of the Company.

7. Human Resource Development:

The people of any industry serve as propeller for upliftment of the industry and thus indirectly contribute the National Product and to this to the exchequer of India. The management has always remained conscious of these related factors and maintained a favorable climate during the year to suit the growth and excellence in the Company. The management as always has kept cordial relationship between the staff, workers

and management. This attitude created an atmosphere where each and every staff and worker started feeling a sense of "ONENESS".

8. Cautionary statement:

The Management Discussion and Analysis Report may contain certain statements that might be considered forward looking. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statements as important factors could influence the company's operations such as Government policies, political and economic development etc.
