OPERATIONAL HIGHLIGHTS & FUTURE PROSPECTS

During the year under consideration the company has achieved turnover of Rs.3147 Lacs as against Rs.1910 Lacs in the previous year. The Gross Profit (PBID) for the year is Rs.387 lacs against Rs. 180 lacs during the previous year. The Net Loss for the year after interest and depreciation but before Deferred Tax Assets and extraordinary items is Rs.625 Lacs as compared to Rs.921 Lacs in the previous year. After considering Extraordinary items of Rs.1900 lacs in the current year (previous year Rs. Nil) and provisions for Deferred Tax Liabilities of Rs.520 lacs (previous year Deferred Tax Assets of Rs.328 lacs), the balance surplus work out to Rs.755 lacs during the year, as against balance loss of Rs.593 lacs in the previous year.

During the year, there was abnormal Sugarcane shortage in the Country, mainly in the State of Madhya Pradesh and Maharashtra. As a result, the Company had crushed a lower quantity of 0.93 lac Tons of Sugarcane as against 1.73 lac tons in the previous year, registering a decline of around 46%. The prices of Sugarcane had also gone up to Rs.1120/- per MT as against Rs.945/- per MT in the previous year. Your Directors, however, are glad to inform that the average sale price of Sugar in the current year was better at Rs.16313/-per MT as against Rs.13213/- in the previous year, due to steep decline in the production of Sugar in the country.

Your Directors are pleased to inform that the Company had made almost timely payment to Cane farmers and dues of workers, inspite of constraints of working capital which is managed by higher sale quantity with the help of interim court order.

Your Directors would like to mention that the Monsoon was weak in the year under consideration which resulted in lower Sugarcane production and lower crushing and growth. In the current year also, till now, the Monsoon seems to be weak and unless the situation improves, the Company's operation may be effected in the coming year.

The production of Sugar in the Country was substantially lower in the Sugar season 2004-05 as compared to previous year. Due to shortfall in production, the sale price of Sugar had substantially gone up in the market. The Company expects improved Sales Realization of Sugar in the coming year due to aforesaid factors as well as due to higher local demands

16th ANNUAL REPORT 2004-2005

and also expected demands from neighbouring country .

The huge benefits of Sardar Sarovar Project on River Narmada will be visible in the coming years. It is expected to boost Sugarcane crop in the area, as the Sugarcane farmers will get sufficient water for irrigation through canals, tributaries, ground water etc. Your Directors expect better capacity utilization in future.

DIVIDEND

Due to operational loss during the year, no dividend is declared.
