MANAGEMENT DISCUSSION AND ANALYSIS ON SELECT FINANCIAL DATA

During the year under review the Company owned and operated four Anchor Handling Tug cum Supply Vessel (AHTSV) and two Platform Supply Vessels (PSV's). Except for one AHTSV which is in excess of 30 years, all the vessels are deployed on contract. During the year under review on a standalone basis, the Company's Income from Operations (chartering) stood at Rs.122.22 crores as against stood Rs.127.36 crores for the previous year.

The Company's Netherland subsidiary – Global Offshore Services B.V. (GOSBV) inducted one more new building PSV into its fleet during the year thereby taking its fleet to three PSV's and one AHTSV (all owned). All these Vessels are on long term contracts varying from 1 to 4 years. GOSBV has recorded a Total Income of \$28.47 million for the year (as opposed to \$10.10 million for the previous year). The Net profit for the year stood at \$4.25 million (as opposed to a profit of \$0.34 million for the previous year). GOSBV is scheduled to take delivery of one more New Building PSV in November 2014. The Vessel is being built by Havyard Group in their Yard in Norway.

The Company's wholly owned subsidiary in Singapore, Garware Offshore International Services Pte. Ltd. (GOISPL) has two Vessels on Bare Boat Charter – one AHTSV and one PSV. The Vessels are on term contracts in Brazil and the North Sea respectively. GOISPL recently exercised its option to purchase an Accommodation Work Barge which was taken on Bare Boat Charter in 2009. This Barge was simultaneously sold to the Company which had taken the Barge on charter from GOISPL. For the year under review, GOISPL recorded a Gross Income of \$11.19 million and opposed to a Gross Income of \$ 9.73 million. The Company recorded a loss of \$ 0.41 million as opposed to a profit of \$0.11 million for the previous year. The loss for the year was attributed to the provisioning of certain doubtful debts.

On a consolidated basis Company has recorded an Income of Rs.351.55 crores with a consolidated Net Profit of Rs.46.38 crores as compared to an Income of Rs.269.49 crores and a Net profit of Rs.52.59 crores (for the previous year).

Global Offshore Services Ltd. has issued Guarantees on behalf of both its subsidiaries to Bankers and Owners of Vessels (in the case where Vessels are on Bareboat Charter). Since all the Vessels for which such Guarantees have been given are on Term Contract with Sovereign/Highly rated E&P Companies and since the Market Value of all the Assets is higher than the amount of the Guarantee given, the risk of any of these Guarantees devolving on the Company is negligible, if not "zero".

FUTURE OUTLOOK

Indian Scenario ;

According to information available the production of crude oil has not seen major growth for last few years. However there has been growth in production of Natural gas in last decade. After a comparatively quiet last year, higher production is expected as a result of overcoming constrains that were faced in earlier years in the Industry. These constrains are mainly of a technical nature.

A Government Committee has been constituted to prepare a roadmap for enhancing domestic production of Oil & Gas. The committee is also given a task to suggest measures for Development and promotion of indigenous service industry in E&P sector.

The "roadmap" for switching over to the market determined gas pricing at the end of 12th plan period gives confidence to Companies for securing minimum margins that would make exploration profitable. Technology and Government policy measures are expected to give boost to exploration activities in areas which otherwise were not considered attractive enough by explorers.

During the current year too, charter rates for Offshore Vessels in India did not see a substantial increase for "term" jobs. However, the Company hopes that the aforementioned thrust in the Industry and a better economic environment should have a positive effect on Charter rates.

Global Scenario:

In the short term, weakening oil futures is expected to impact spending in price sensitive regions. However in the long term, oil prices are expected to strengthen as the global economy starts seeing a more solid recovery, pulling up oil demand.

Escalation in cost is reported to be one of the reasons for slow growth in upstream spending. Generally, both in terms of revenue and margin, the year of 2013 is said to have been a challenging one.

However as per some analysts/experts view, Crude Oil will remain above break even price in most regions of the world in the future. This will induce growth in the Off Shore Exploration & Production business and in turn, in the OSV industry.

Globally, the OSV fleet is getting younger with 60 % of the fleet being less than 10 years. There is visible preference for "younger" ships by E&P Companies in most areas. Safety has now become the number one concern for Oil Companies and the belief of a direct correlation between "age" and "ability" is strong. There are, however, certain markets which still accept older Vessels.

The shift in Off Shore drilling from Shallow to deeper and farther from shore has also made an impact on the size and power of PSVs/AHTS respectively.

Strong demand seems to be evolving from markets like Brazil and Africa as well as some parts of the Middle East.
