**OPERATIONS :**

The operations of your Company during 2005-06 were less than satisfactory. Though the company has been successful in processing higher quantity of material compared to previous year but such processing could not result in higher sales / processing income due to scarcity of good quality raw material. During the year 2005-2006, the company also gave thrust to convert the huge quantity of work in process materials to finished goods and liquidated these old stocks of WIP and finished goods at the best realizable rates. Continued scarcity of good quality raw material, steep increase in the overall cost of inputs besides severe working capital constraints have also contributed to the losses, resulting in the losses before interest and depreciation at Rs. 868.10 lacs (Rs. 287.34 lacs during 2004-2005) and the net losses for the year was substantially higher at Rs. 1253.15 lacs in comparison to Rs. 66.42 lacs during 2004-05.

**FUTURE PROSPECTS :**

The trend for the current year is expected to be much similar to the last year as could be seen from the operations of the first quarter of 2006-07. The Company continuously places its thrust on procurement of best quality granite rough blocks, improved efficiency and productivity with reduced operating cost. The Company is also in the process of negotiating with the lending banks for one time settlement and looking for fresh avenue for funding the working capital requirement of the company.

**DIVIDEND**

In view of the loss, your Directors are unable to recommend any dividend for the year 2005-06.
