MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

Your Directors have pleasure in presenting the Management Discussion and Analysis report for the year ended on 31st March 2010.

a. INDUSTRY STRUCTURE, DEVELOPMENT-

Globus Corpooration Limited is engaged in manufacturing ACSR, AAA Conductors. The power sector is a key infrastructure back bone of the country, which needs to grow faster then the average growth of the economy. The cheaper and stable power could be secured through large size Power projects and for which we require efficient critical technology and better quality of power cables and conductors to minimize transmission and distribution line loss. Also easier norms for qualification of tender and lower earnest money for tender will make the industry grow at required pace. An increase in working capital is required to execute more orders.

b. OPPORTUNITES, THREATS AND RISKS

The fluctuation of the raw material price put pressure on the profitability. The company is planning to hedge the metal on LME. Even so, it does not provide a guarantee to price volatility. After the 2008 financial crisis, the demand for conductors was affected in the short term. It has resulted in a very competitive environment, where the company was out priced in bidding some contracts. The power industry is showing healthy signs of growth for long term. The tender prerequisites have become more stringent. Thus smaller companies are not qualified to participate. The company is planning to expand its products and capacity. This should enable it to stay on top of competition.

c. SEGMENTWISE PERFORMANCE:

The company operations are broad bifurcated into two segments. Manufacturing and Trading.

d. INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:

The company has adequate internal control system commensurate with the size. The committee reviews the implementation of management policies to ensure that transaction has been accurately recorded and promptly reported.

e. OUTLOOK:

The company has a very positive outlook for the future. There is expected to be good demand for power cables and power related equipments because of continued large scale investments. However Company could not achieve the sales target due to delayed payment from our customers and single product production capacity. Tender prerequisites have gotten more stringent. Thus to stay on top the company must expand its product portfolio and increase capacity to stay competitive, thereby cutting costs further through economies of scale.

f. HUMAN RESOURCES & INDUSTRIAL RELATION:

The company has harmonious Industrial relation. It promotes open and transparent working environment to enhance teamwork and business focus. There is continuous emphasis on development of human resources through training. The issues pertaining to workers are resolved in harmonious and cordial manner. The HR committee is planning to start a performance/ production linked incentive scheme in the coming financial year. The object of this scheme is to maintain optimum performance level and profit driven culture.

CORPORATE GOVERNANCE REPORT**(1) COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE**

The company's continued endeavor is to attain highest standards of transparency, responsibility and accountability and achieve good governance. The Company is constantly trying to attain these standards in our dealing with employees, shareholders, consumers and community at large. The Board of Directors represents the interest of the company, which is in the interest of the shareholders by way of providing necessary guidance and strategic vision to the company.
