MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have pleasure in presenting the Management Discussion and Analysis report for the year ended on 31st March 2011.

a. INDUSTRY STRUCTURE, DEVELOPMENT-

Globus Corpooration Limited is engaged in manufacturing ACSR, AAA Conductors. The power sector is a key infrastructure back bone of the country, which needs to grow faster then the average growth of the economy. The cheaper and stable power could be secured through large size Power projects and for which we require efficient critical technology and better quality of power cables and conductors to minimize transmission and distribution line loss. Also easier norms for qualification of tender and lower earnest money for tender will make the industry grow at required pace. An increase in working capital is required to execute more orders.

b. OPPORTUNITES, THREATS AND RISKS

At the world level, there are significant changes occurred in micro level as well as macro level, particularly EUROZONE crisis, U.S. slowdown, PIGS crisis and even in India fluctuation of GDP and production and inflation level. Also at local level in Andhra Pradesh due to Telengana issue has been hampering the production and business. The above issues have made the raw material price very volatile. This puts pressure on the profitability. The above factors have had an adverse effect on the demand for conductors in the short term. It has resulted in a very competitive environment. The power industry is showing healthy signs of growth for long term. The tender prerequisites have become more stringent. Thus smaller companies are not qualified to participate. The company is planning to diversify its products and expand its capacity. This should enable the Company to stay on top of competition and capitalize on the industry growth.

c. SEGMENTWISE PERFORMANCE:

The company operations are broadly bifurcated into two segments, Manufacturing and Trading.

d. INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:

The company has adequate internal control system commensurate with the size. The committee reviews the implementation of management policies to ensure that transaction has been accurately recorded and promptly reported.

e. OUTLOOK:

The future of the industry looks quite encouraging. Although the demand for power conductors and cables has increased due to large scale electrification by the central and state governments; the tender norms have become more stringent. The Company however could not achieve the sales target due to delayed payment from our customers and single product production capacity. Thus to stay on top, the company must expand its product portfolio and increase capacity to stay competitive, and also plan a backward integration thereby cutting costs further through economies of scale and by manufacturing our own raw materials.

f. HUMAN RESOURCES & INDUSTRIAL RELATION:

The company promotes open and transparent working environment to enhance teamwork and business focus. Human resource is a priority and well emphasized through continuous training of the Company employees both skilled and unskilled. The issues pertaining to workers are resolved in harmonious and cordial manner. The Company is well respected in regards to Industrial relation because of our transparent and open working system.

CORPORATE GOVERNANCE REPORT**(1) COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE**

The company's continued endeavor is to attain highest standards of transparency, responsibility and accountability and achieve good governance. The Company is constantly trying to attain these standards in our dealing with employees, shareholders, consumers and community at large. The Board of Directors represents the interest of the company, which is in the interest of the shareholders by way of providing necessary guidance and strategic vision to the company.
