### FUTURE OUTLOOK:

In the wake of ongoing economic scenario the outlook of the company looks bleak. It is difficult to sustain against domestic as well as world crisis and to maintain itself in prevailing market condition and competition. With rising overhead expenses like interest, labour raw material, power cost the company does not see any favourable outlook. Power supply in the State of Andhra Pradesh has become worse. The state distribution company (APCPDCL) has increased power bills by means of collecting FSA charges and other miscellaneous charges to pay for their financial deficit. ## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Your Directors hereby present the Management Discussion and Analysis report for the year ended on 31st March 2012.

### **a. INDUSTRY STRUCTURE, DEVELOPMENT-**

Globus Corpooration Limited is engaged in manufacturing ACSR, AAA Conductors. The power sector is a key infrastructure back bone of the country, which needs to grow faster than the average growth of the economy. The electrical conductor industry has become very unstable. Out of 35 Companies in the State of Andhra Pradesh only 5 are operational. Due to stalled reforms, lack in demand of conductors from government or private sector, non-availability of power and labour, unrest in the region and higher cost of finance and increased overheads has lead the Company to operational losses. The Company now has reached a stage where it cannot sustain itself. With increasing electricity cost, frequent power cuts, higher interest costs, volatile raw material price fluctuations and delayed payments from customers the Company has decided to suspend all Manufacturing and Job Work activity in the interest of abundant precaution, and for preserving economic value of the company and as a prudent norms of business. Company has decided to reassess the opportunities, scope, threat and value of company.

### **b. OPPORTUNITES, THREATS AND RISKS**

The world and local economies have not improved. Manufacturing in India is at its all time low. The government (both Center and State) have given no help to help SSI (Small Scale Industries) in the manufacturing sector. The Telangana issue has been hampering the production and business. The Company could not manufacture and deliver the material in time due to frequent power cuts and "Bandhs" in the name of Telangana. This has led the Company to incur penalty and has sustained losses. The instability of the world economy has led to very high volatility of raw material prices. This has also led to losses. The above factors have had an adverse effect on the demand for conductors in the. It has resulted in a very cut-throat competitive environment.

### **c. SEGMENTWISE PERFORMANCE:**

The company operations are broadly bifurcated into two segments, Manufacturing and Trading.

### **d. INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:**

The company has adequate internal control system commensurate with the size. The committee has been appointed to reassess the value of assets and liabilities of the company in light of closure of business activity.

### **e. OUTLOOK:**

The future of the industry does not look quite encouraging in the short to medium term. Due to above mentioned grim factors it is not possible to continue running business. Hopefully in the long term the world economic crisis may have stabilized to create a better outlook for the Industry.

### **f. HUMAN RESOURCES & INDUSTRIAL RELATION:**

The company has paid all dues to their laborer along with provident fund and is thankful to all its laborers for their continued support.
