

NEW GENERATION WITH REVOLUTIONS

29th
ANNUAL REPORT
2021-22

Gokul Refoils & Solvent Ltd.

CHAIRMAN'S MESSAGE

Dear Stakeholders,

It gives me immense pleasure to present the 29th Annual Report and Performance of your Company.

The FY 2021-22 like FY2020-21 began with great challenges as the second wave of Corona virus hit the world more vigorously than the first wave in 2020.

The after effects of the COVID-19 pandemic continued to affect the global economy. After the challenge of shutdowns of 2020 and the supply chain challenges of 2021, the businesses including that

of edible oils all around the world faced another wave of disruptions and challenges which is the form of rising input prices.

After that Russia- Ukraine war that started in February, 2022 also added the woes of both, businesses and consumers and also greatly affected the edible oil business. The war in Ukraine which supplies nearly half of the world's sunflower oil, on top of the 25% from Russia has interrupted shipments and sent cooking oil prices spiralling.

India imports around 60 per cent of its consumption of edible oils. As a result, fluctuation in imports and international prices transmit to domestic prices of edible oil. The spike in prices of edible oils is mainly on account of high and increasing international prices of edible oils. Domestic consumption of edible oils has been affected due to the high price in the international market. This has resulted in the reduction in demand and slowdown in consumption.

India is the world's second largest consumer and number one importer of vegetable oil. As urbanisation increases in developing countries, dietary habits and traditional meal patterns are expected to shift towards processed foods that have a high content of vegetable oil. Vegetable oil consumption in India is, therefore, expected to remain high due to high population growth and consequent urbanisation. As per the OECD-FAO Agricultural Outlook 2021-2030, India is projected to maintain a high per capita vegetable oil consumption growth of 2.6 per cent per annum.

Castor oil is becoming an essential bio-based raw material which makes it ideal for various industrial applications. As a result, its demand is rising as a potential alternative to petroleum-based chemicals.

On account of its distinctive chemical structure, castor oil acts as a major raw material which is used in the production of various end products such as biodiesel, polyurethane adhesives, machining oils, refrigeration lubricants, etc. This versatile nature of castor oil has been contributing towards the propelling growth of the market.

As compared to other vegetable oils, castor oil is a healthier and less expensive alternative. Owing to this, food grade castor oil has gained a momentum in the food industry in the form of flavouring mould inhibitor, food additives and packaging.

The global castor oil market is being hindered by the unstable prices of castor beans which is the result of their fluctuating supply. This supply highly depends upon the weather conditions of the region and a long harvesting process of castor beans.

During the FY2021-22 total revenue from operation was Rs. 305,302.67 Lakhs against Rs 246,466.59 Lakhs in the previous year on a consolidated basis. This shows an increase in total revenue by 23.87 % as compared with previous year.

Net profit after tax is Rs. 2652.40 Lakhs for year ended 31.03.2022 as against Net profit of Rs. 2,045.64 Lakhs in previous year on a consolidated basis. Hence the net profit after increased by 29.66 % as compared with previous year.

Economic Outlook for 2022-23

Compounding the damage from the COVID-19 pandemic, the Russian invasion of Ukraine has magnified the slowdown in the global economy, which is entering what could become a protracted period of feeble growth and elevated inflation. Global leading indicators point to weakening momentum and global purchasing manager indices are sliding and nearing contractionary territory. Mild recessions to occur in the US and Europe later in 2022 and into early 2023.

India is likely to be the fastest-growing Asian economy in the Asian region in 2022-23. It is expected that India's economic growth to average 7.5 per cent during this period – the strongest among the largest economies – and contributing 28 per cent and 22 per cent to Asian and global growth, respectively. The Indian economy, is set for its best run in over a decade, as pent-up demand is being unleashed. The key change in India's structural story, lies in the clear shift in the policy focus towards lifting the productive capacity of the economy. Policy makers have taken up a series of reforms which will catalyze an upswing in the private capex cycle, helping to unleash a powerful productivity dynamic, leading to the onset of a virtuous cycle.

Over the years our products have ruled a number of kitchens in the country, but our efforts (beyond our business) have nourished lives of many more. We continue to go head-strong in our actions towards healthcare, education and empowerment of women, which embrace our social values and principles. Where we stand today are the perseverance and efforts undertaken by your Directors and the entire family of Gokul Group. I would like to express my gratitude to the entire family of Gokul Group and their efforts and hard work that has made "Gokul" the prominent and renowned brand. I am confident and excited that the Gokul family will excel great heights in the years to come. I would like to take this opportunity to thank our dedicated and motivated employees who are the greatest asset of the Company and with their passion, hard work and commitment taken us to this level and also appreciate the guidance from the members of Board from time to time.

We also thank our stakeholders, clients, vendors, bankers, investors, Governments, Government Agencies and partners in growth for reposing their confidence and faith in the Company. Despite corona pandemic Gokul group was able to deliver because of your support and confidence in us. It is your trust and commitment that inspires us to set high standards of growth and performance and continue to deliver high returns to our stakeholders.
