FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE & DIVIDEND

Though there was no change in the excise duty structure, at the same time there was no relief given in the mini segment by the Government, in which your company enjoyed the largest market share in the cigarette industry. Beside this the grey market cigarettes continue to be a major threat for the organised sector especially low priced segment. Despite representations, before the Government by the industry, grey market continue to grow at a rapid rate resulting sharp drop in your company's volume.

Introduction of mini filter (59 mm) in this year budget is a good move by the government.

This year saw the consolidation of the brands launched earlier. We launched new Cigar with the brand name of Golden Cigaro. This product from the stables of Golden Tobacco was received favorably, and was rolled out across the country. But this year budget heavily taxed cigars.

In view of the carried forward losses, your Directors do not recommend any dividend.

REAL ESTATE DEVELOPMENTS

The Company has started the Real Estate business in the year 2007-08, when its Hyderabad Property was offered for Joint Development with a reputed builder. The existing manufacturing facility of Vile Parle Property is being shifted to Vadodra/Palghar units. The workers have been offered Voluntary Retirement Scheme (VRS) during the year. The response to the scheme was overwhelming as 343 workers out of a total of 352 have opted for the scheme. The workers who have accepted the VRS has already been paid in the month of April, 2010.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The cigarette industry continued its decline in the year 2009-2010, though there was no change in the excise duty. The drastic change in the dynamics of the industry, bringing the price of plain cigarettes on par / more with the filter regular segment remained as it is. The grey market products remained at the same levels. In grey market these segments of cigarettes are being sold at Re. 1/- per stick whereas excise, Vat and other levies alone are more than Re. 1/- per stick. This didn't allow plain segment to stabilise and the losses to the segment continued. And this phenomena further affected our volumes.

This year government gave some relief to mini segment, which should give positive turn to this segment. Also introduction of mini filter (59 mm) in this year budget is a good move by the government.

Some of the States have increase VAT rates which will effect the margin of the Tobacco Industry adversely.

Our company being the market leader in plains/micro segment, we managed to retain some volumes despite of increasing prices, and also converted plains consumers to filter by timely launch of Panama Filter. The marketing strategy in the past year was to create engines for growth in the regular filter and filter kings segment.

This year saw the consolidation of the brands launched earlier. We launched new Cigar with the brand name of Golden Cigaro. This product from the stables of Golden Tobacco was received favorably, and was rolled out across the country. But this year budget heavily taxed cigars.

Consolidation on the sales and distribution front, resulting in a leaner sales force with increased manpower productivity will help in improving volumes in coming years.

During the year under review, the cigarette industry has fallen by over 1% compared to the previous year. Due to above reasons industry for plain cigarettes decline by over 90% in last two years.

OPPORTUNITIES, THREATS AND FUTURE OUTLOOK

The grey segment is the biggest threat to the very existence of the industry. There are hundreds of units which have come up in small scale sector across the country. As per an estimate their volume is over 2500 millions sticks every month which is almost 25% of the total industry size. The management has taken up this issue with the Government at the highest level.

DIVERSIFICATION

The management earlier wanted to do realty business by demerger of the cigarette business. However, due to continuous fall in volumes of cigarettes sales it was felt prudent to do the realty business under one entity only. The Demerger plan therefore was shelved. In view of the thrust on infrastructure and housing in the government policy, the realty sector has lot of potential in the time to come. Besides there is lot of gap between demand and supply in the housing sector more particularly in urban areas. The Company has certain surplus assets which have potential for development; hence these properties shall be developed in Joint Ventures with world class developers.

SEGMENT WISE / PRODUCT WISE PERFORMANCE

Segment wise / product wise performance reporting is not applicable to your company since it is a uni-product Company.

These reports are placed before the Audit Committee for their review at regular intervals. The system is assisted by an Enterprise Resource Planning (ERP) package named BaaN employed at the Baroda and Mumbai office/ unit to ensure efficient operation of the business enterprise.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT

Your Company endeavors to move ahead with its most valuable resource, its employees. Our progress as a Company is very intimately entwined with the well being of our manpower. Realizing the essence, we have and will continue in the future to have cordial and healthy relations with the Unions at all the three units of Mumbai, Baroda and the Guntur. We pledge to continue to maintain these good industrial relations through concerted positive efforts.

The Company had 906 employees as on 31st March, 2010 as compared to 1061 at the beginning of the year, comprising of 180 in management/supervisory cadres, 140 in the staff cadres and 586 as workmen.

FINANCIAL PERFORMANCE

Due to various adversities as mentioned in the Directors Report, the Company's performance was affected. The gross turnover for the year under review stood at Rs. 15012.89 Lacs as against Rs 17367.80 Lacs of the previous year. The Net Profit/(Loss) before tax for the year under review was Rs. (1129.88) Lacs as against Rs. 67.63 Lacs. After making adjustments for various tax provisions the Net Profit/(Loss) after tax was Rs. (1133.66) Lacs as against Rs. 25.03 Lacs.

CAUTIONARY STATEMENT

The above statements are based on the current scenario and the input available to the Directors. Any extraneous developments may have an impact on the above perceptions.
